

## Ship Officers' Strike On B.C. Coast To Continue

### Already Hungry, Holy City Faces Water Shortage

JERUSALEM (AP)—This Holy City, already short of food and torn by civil strife, was threatened today with a critical water shortage.

An official announcement said one water supply source, "for the time being, is interrupted." British Mayor Richard Graves appealed to the city's 160,000 inhabitants to use tap and cistern water sparingly.

One source said Arab attackers had severed a water pipeline from Ras el Ein, 15 miles north-east of Tel Aviv. Jerusalem's second water source, Ain Farah springs, is restricted by lack of fuel oil for pumps.

The pipeline parallels the mountainous Jerusalem-Tel Aviv highway, scene of bitter-fighting for three months.

A Jewish convoy of about 50 trucks, the second in three days, arrived over that highway today with food for Jerusalem's 100,000 Jews. The Jewish militia Hagana provided the escort.

### FIGHTING AT VILLAGE

Arabs intensified efforts to dislodge Jews from Kastel Village, overlooking the highway five miles west of Jerusalem. Hagana occupied the village Saturday because Arabs had attacked Jewish convoys from it.

By unofficial tally, 2,428 persons have been slain in Palestine since the United Nations voted for partition last Nov. 29.

Hagana sources said Jewish forces had killed seven Syrian fighters and wounded a score or more in attacks on war parties crossing the border of northern Palestine near the Jordan headquarters.

(A Reuters report said Abdul Kader Hussein, veteran Arab guerrilla leader and relative of the Mufti, was killed today in an action between Jews and Arabs at Mount Kastel, five miles west of Jerusalem.)

### Price Of Butter May Jump Slightly On Freight Boost

OTTAWA (CP)—With the general 21 per cent increase in freight rates going into effect today, the price of butter—if you can get any—will be a shade higher.

The Prices Board announced that manufacturers and wholesale distributors of butter are authorized to increase their selling price "by the exact amount of the increase in cost of transportation."

While this would vary in each particular case, the board said the price increase to the consumer, varying on different zones, will average less than a half-cent a pound.

While the order became effective today, it allows increased costs to be added by the manufacturer only on sales of butter in which he has actually incurred higher costs in delivering the butter to the buyer. In the case of the wholesale distributor the increase may be added only on sales of butter on which he has actually paid increased transportation costs.

(See picture and story, page 15.)

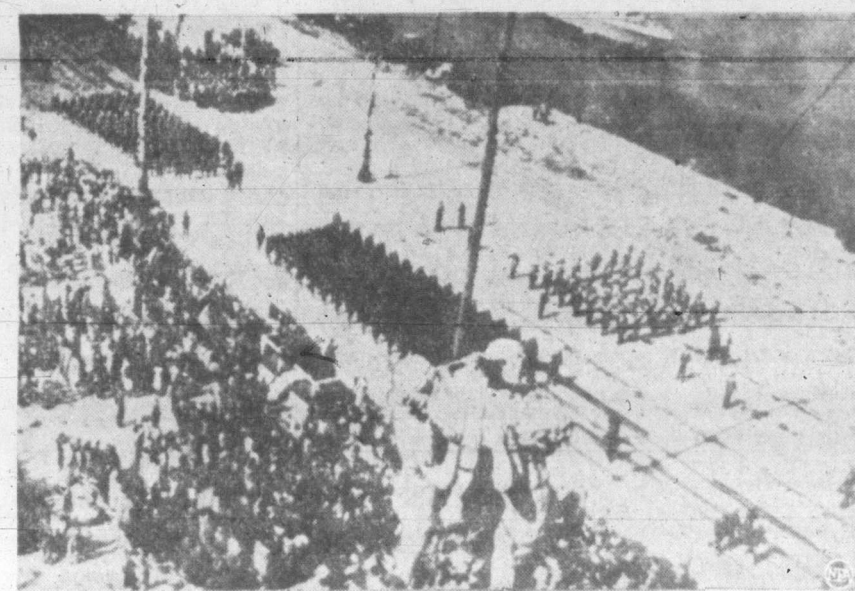

### Propose New Regime For West Germany

LONDON (Reuters)—The United States has proposed a five-point program setting up a West German government in just more than a year's time, it was learned tonight.

### COMMITTEES TO END

BERLIN (Reuters)—The western delegates at today's meeting of the four-power Kommandatura agreed to abolish six of the eight committees which the Russians last week demanded should be wiped out.

### Trieste Turns Out To See Yanks March

Watched by some 100,000 spectators, U.S. army units march in parade at Trieste, celebrating Army Day and bolstering "the morale and confidence of the population." Here the parade of 5,000 American soldiers is passing the reviewing stand in the Piazza del Unità.—NEA Radiotelephoto.

## Probe Says Braund 'Fraud, Charlatan', His Cancer Cure A 'Snare And Delusion'

SYDNEY, Australia (CP)—John Braund, 78-year-old Sydney layman, cannot cure cancer, said the verdict of a government committee report, tabled in the New South Wales Parliament today.

After two months' research and examination of patients claimed to have been cured of cancer by Braund, the committee unanimously found that in no case it investigated had such a claim been substantiated.

Premier James McGirr of New South Wales ordered the investigation after publication of claims by Braund—and some of his patients that he had a cancer cure.

### INJECTS ALUM

The 12-man committee of laymen and doctors said Braund's "alleged specific cure for cancer is injection of alum into the subcutaneous sub-surface" tissues of patients, thereby causing necrosis (death) of tissues with consequent separation of a slough which is claimed to be the actual cancer," the report said.

(Slough is dead tissue which breaks away from the flesh.)

The report declared Braund

## LATEST

### Not Selling Plants

WASHINGTON (AP)—The White House today directed the United States War Assets Administration to hold up final disposition of all unsold industrial plants, machine tools and production equipment in these plants.

### Freight Rates Up

MONTREAL (CP)—Spokesmen for Canada's railways said today the 21 per cent freight rate increase granted by the Board of Transport Commissioners now is in effect, as of last midnight.

### Released On Bail

Bernard C. Bowcott, who appeared in city police court this morning in connection with the recent theft of the safe in Ciro's Cafe, and reserved plea until Monday, was released this afternoon on bail of \$2,500.

George Gregory appeared in court as Bowcott's counsel.

### Delegation Here On Sales Tax Protest

Hundred delegates of C.C.L. unions who claim their number will be swelled to 200, including members of other unions, converged on the Parliament Buildings this afternoon and will stay to Friday to protest the proposed three per cent sales tax. They have a three-point program—to see the cabinet, meet a C.C.F. caucus and to buttonhole members.

had failed to co-operate with the committee and had not demonstrated his methods of injecting fluid into patients.

Four Canadians, two Americans, one Chinese, one Burmese and several New Zealanders traveled by plane to Sydney in the hope of being cured of cancer.

In his final summing up, Dr. E. H. Morris, director-general of public health, accused Braund of "being a fraud and a charlatan" and said the Braund method was a "delusion and a snare."

Braund, through his lawyers,

said he intended to carry on his work regardless of the adverse opinion "by a certain section of the community."

Braund offered his system of treatment to the government gratis last January, if his claims were found to be justified. At first he indicated he would welcome investigation by experts, but on Feb. 2 he appeared to change his mind. He said then he wanted a panel of laymen to conduct the inquiry, charging that surgeons nominated to a government panel would be prejudiced.

## Britain Submits Plan For Food Purchases From Canada To E.R.P.

LONDON (CP)—A program of British food purchases in Canada during the next three months has been submitted to European Recovery Program officials in the United States and a decision on what assistance in buying will be granted now is awaited, it was learned today.

"We have answered a request from the United States for our import program from the western hemisphere, which includes anticipated imports from Canada," a source said.

"We have also given our ideas on how these imports should be paid for, but so far as we know no decision has yet been reached."

(In Ottawa, a Canadian government official said Wednesday that Britain had requested the United States Agency handling E.R.P. to take over the United Kingdom's food contracts with Canada. This official said the United States' reaction was not yet known.)

More Textile Exports

Harold Wilson, President of the Board of Trade, announced this week that the wool industry is being asked to export 75 per cent more goods to Canada this year than in 1947. This ties in with the cotton textiles target of increasing exports to the Dominion 12 1/2 times.

## Russia Defends Advertisements Asking Lithuanians To Register

OTTAWA (CP)—The Russian embassy, replying to a Canadian rebuke, today defended its conduct in advertising for Lithuanians in Canada to register as Soviet citizens and made no apologies.

Its reply came a week after the Canadian government publicly "regretted" it had not been informed before the embassy published the advertisements in Slavic-Canadian newspapers and disclosed the embassy had been asked to make clear in future announcements that such registrations would be voluntary.

The Russians, in a note to External Affairs Minister St. Laurent:

1. Quoted the advertisement as saying Lithuanians here who are not Canadian citizens "should register" as Soviet citizens by June 1.

2. Pointed out that the Canadian statement had been made

The British source said British officials at this stage are not making public their suggestions on what proportion of the Canadian imports should be paid for from E.R.P. funds.

But he added that increased emphasis is being laid on food and the expense of a possible future reduction in clothing ration for the United Kingdom's residents.

This indicated that Britain is determined to pay for the largest possible amount of essential foods and other imports from Canada from her own resources and not to lean entirely on the United States.

### MORE TEXTILE EXPORTS

Harold Wilson, President of the Board of Trade, announced this week that the wool industry is being asked to export 75 per cent more goods to Canada this year than in 1947. This ties in with the cotton textiles target of increasing exports to the Dominion 12 1/2 times.

More Textile Exports

## Russia Defends Advertisements Asking Lithuanians To Register

OTTAWA (CP)—The Russian embassy, replying to a Canadian rebuke, today defended its conduct in advertising for Lithuanians in Canada to register as Soviet citizens and made no apologies.

Its reply came a week after the Canadian government publicly "regretted" it had not been informed before the embassy published the advertisements in Slavic-Canadian newspapers and disclosed the embassy had been asked to make clear in future announcements that such registrations would be voluntary.

The Russians, in a note to External Affairs Minister St. Laurent:

1. Quoted the advertisement as saying Lithuanians here who are not Canadian citizens "should register" as Soviet citizens by June 1.

2. Pointed out that the Canadian statement had been made

## Russians Plan Taking Steps To Guard Planes

BERLIN (AP)—Marshal Vassily D. Sokolovsky has blamed a British traffic violation for Monday's British-Soviet plane collision.

The Russian military commander said that unless he was assured British planes will observe four-power flight rules, he intends to "take measures for the protection of the safety of air traffic over the Soviet occupation zone."

He turned down the idea of a four-power investigation of the crash, which occurred on Berlin's outskirts and killed 15 persons. He favored an inquiry by a Soviet-British commission.

Sokolovsky stated his position in a reply to communications on the crash from his British counterpart, Gen. Sir Brian Robertson. He described the British version of the accident as slander.

Robertson said on his return this morning from Dusseldorf that he intended to deal immediately with the Russian reply. He gave no hint of what he intended to do.

### TIGHTER LINKS

Arriving in Berlin at about the same time was Maurice Couve de Murville, one of France's top diplomatic negotiators. He is to meet ranking officials of the western allies and many believe negotiations for a closer linking of the French zone with British-U.S. Bizonia are on tap.

Robertson in Dusseldorf Wednesday delivered an address sharply critical of Communism. The Russian marshal's letter reversed the position he took Monday after the accident. At that time he expressed regret and assured Sir Brian the Russians did not intend to interfere with flights down the Allied air corridor to Berlin.

His communication was the latest interchange between Russia and the western powers since the Soviet military administration instituted rules April 1 restricting Allied railroad traffic through the Soviet zone between Berlin and the western zones.

## Communists Angry At Letter Writing Campaign From U.S.

ROME (AP)—The Communist-backed Popular Front attacked today the letter-writing campaign of Italian-Americans urging Communist defeat in the April 18 elections.

Italians in the United States have sent a flood of letters to Italy, and this attack against them was seen by some as an indication the letters are having considerable effect.

Avanti, newspaper of the pro-Communist Socialist Front, gave one page to a multi-colored broadside against the letters. It urged the page be cut out and pasted up as a poster.

Meanwhile party members hitched up their belts for a final week of campaigning for Italy's vital parliamentary balloting.

Reports from both Communists and anti-Communists as well as from foreign observers indicate sensational last-minute efforts to capture wavering votes may develop.

Communists in Rome have been boasting that the "last big electoral coup will be ours."

A poster said the Christian Democrats might be ready to expose an alleged Communist plot to force the Pope to leave Rome if the Popular Front wins.

Rome newspapers said a communiqué from Allied authorities in Trieste announced that civil government in the British-American zone of the free territory will be transferred April 12 into Italian hands.

16 Die In Korean Riots

SEUL, Korea (AP)—Four Korean police and 12 civilians were killed in a series of 10 attacks on police boxes and conservatives' homes on Cheju Island, the United States army reported today. Officers here blamed Communists.

### May Head E.R.P.

Paul G. Hoffman (above), president of the Studebaker Corporation, South Bend, Ind., is reported to be a likely candidate for appointment by the U.S. to the post of head of the European Recovery Program.

## City Hall Sale Threatened By Taxation Clause

Sale or leasing of the City Hall is threatened by a fixed taxation clause in a bill setting out terms of disposal which is being studied by a committee of the Legislature before being presented on the floor of the House.

The committee objects to the city being allowed to grant fixed taxation on the property and on a \$3,000,000 hotel planned on the site.

This concession is contrary to a 1947 amendment to the Municipal Act, members argue. Deletion of the clause would mean, in effect, that a syndicate negotiating for the property could not purchase the City Hall and site.

It is not known if the syndicate, represented by a real estate man, Milton H. King, would lease the property without the protection of being able to purchase it in time.

## Fewer Combines Needed For U.S.

OTTAWA (CP)—Fewer Canadian combines will find harvesting work in the United States this year, Labor Minister Mitchell said today.

Canadian farmers have been able to make extra money by taking their combines across the border and helping with the harvests there during the summer. Mr. Mitchell said United States authorities have warned that smaller crops will result in less work for them this year.

A meeting will be held in Kansas City May 4 to estimate the number of Canadian machines required in the U.S. this summer. It will be attended by representatives of all the small-grains producing states, the federal labor department and the interested provinces.

### Money For Italians

ROME (AP)—United States delegate Myron C. Taylor today presented to Premier de Gasperi a cheque for \$75,000 from the American Relief for Italy Organization. The money is to be used by the Italian Red Cross.

## All Evidence Presented In New Liberty Libel Case In Alberta

EDMONTON (CP)—The trial of Jack Kent Cooke, publisher of New Liberty Magazine, neared its end today with defence counsel Joseph Sedgwick and Crown Prosecutor C. S. Blanchard delivering their summings-up of argument and evidence. A finding by Mr. Justice J. Boyd McBride, presiding without jury, may come today.

The brief summations reiterated contentions entered Wednesday during Mr. Sedgwick's unsuccessful motion for dismissal on grounds that Alberta had not proved its case.

The youthful-looking Mr. Cooke is charged with counselling news dealer John Michaels of Edmonton to publish a libel defaming C. B. Hill, Alexander H. Miller, C. F. Willis and Clara Frizzell, members of the Alberta Child Welfare Commission, and the Commission itself.

The alleged libel was an article, entitled "Babies For Export" in the Dec. 27 issue of

## Settlement On East Coast May Be Reached Soon

VANCOUVER (CP)—Seventeen deep-sea vessels were tied up in port here today and indications were that west coast radio and engineer operators would continue their five-week-old strike.

The national presidents of the two ships' officers' organizations questioned the authority of an announcement from Halifax Wednesday that striking ship's officers there had decided to accept the McNiven report as basis for settlement of the shipping tie-up.

Jack Holmes, head of the Canadian Communications Association, said "Doherty (William Doherty, national secretary of the C.C.A.) has no authority to issue such a statement."

"I was designated bargaining agent for the radio officers by Mr. Justice D. A. McNiven (federal conciliator in the dispute) and Doherty cannot speak for our membership on the coast."

Mr. Doherty said in Halifax "we are very close to a settlement" and indicated the settlement would apply on the west coast as well as at Halifax and Saint John, N.E.

Dennis Heard, president of the Association of Marine Engineers, also objected to the acceptance

### OVERTIME QUESTION

"Marine engineers will not go back to work solely under conditions of the McNiven report," he said. "We still demand arbitration on the points not covered in it—overtime and pro rata leave."

The report, which recommended adjustments in wages and working conditions, last week was accepted by shipowners as basis for settlement of the dispute.

The two association presidents also announced they would fly to Ottawa this week-end to press for federal government and trade union intervention to end the strike.

## 20 On Czech Plane Revolt; Force Landing In U.S. Zone

MUNICH (AP)—Twenty passengers aboard a Czech transport plane revolted and forced its flight into the United States zone of Germany Tuesday, Czech authorities said today.

The Czech National Air Lines plane, with 26 aboard, landed without warning at an American base near Munich. The plane was en route from Prague to Bratislava, Slovakia. Acting Czech Consul Karer Dvorak said the pilot was forced at pistol point to leave the controls and was locked in the plane's toilet.

A former Czech pilot who once flew with the R.A.F. took over the controls. The plane doubled back on its route and headed for Germany.

When the plane landed at the United States air force's fighter

base at Neuberg the former R.A.F. pilot asked which of the passengers and crew wanted to stay in the U.S. zone.

Six persons, including the plane's original pilot and a woman, said they wanted to go back to Prague. Dvorak said he had issued visas for their return.

The six are billeted in Munich by U.S. authorities and are expected to return to Prague soon, Dvorak said. The other 20 elected to stay in Germany.

Dvorak said the transport still is at Neuberg. It was assumed the plane remain until pilots are sent from Czechoslovakia to fly it back.

Dvorak's statement dispelled a report of the Soviet-licensed German news agency Wednesday night that the plane had been forced down by U.S. aircraft.

## Minister Announces Grants To Island School Districts

Education Minister W. T. Straith today announced how the provincial government proposes to distribute to school districts the \$1,100,000 proposed school tax relief for unorganized rural areas. The sums have been worked out on a complex formula taking into consideration the gross per pupil cost in the individual districts and the needs of the communities.

In the following list, which include the sums to be paid for dis-

tricts on Vancouver Island, the first figure represents the sum the province will contribute, while the second figure represents what the mill rate in that district would be without the contribution. The third figure represents what the mill rate will actually be in that district with the contribution of the province.

Saanich, \$11,697, 12.12, 8.98; View Royal, \$3,044, 11.30, 9.07; Sooke, \$3,649, 9.21, 8.61; Salt Spring Island, \$1,395, 8.62, 8.00; Cowichan, \$12,069, 11.82, 9.13; Lake Cowichan, \$27,237, 21.37, 16.76; Ladysmith, \$4,987, 13.94, 10.95; Nanaimo, \$44,514, 14.62, 9.67; Qualicum, \$21,506, 13.46, 8.00; Alberni, \$20,158, 17.24, 13.04; Courtenay, \$53,665, 17.56, 9.05; Campbell River, \$30,758, 18.50, 10.64; Alert Bay, \$9,335, 13.55, 9.82.

### Pay On Feed Grains

OTTAWA (CP)—Agriculture Minister Gardiner announced in the Commons this afternoon the government had decided to continue paying until July 31, 1949, freight charges on feed grains moving from western to eastern Canada. They are designed to ease the burden on eastern farmers.

6 Hurt In Derailment

TERRACE BAY, Ont. (CP)—Ten cars of an eastbound Canadian Pacific Railway passenger train were derailed near here today and early reports said possibly five passengers had been injured in addition to one member of the train crew.

## Debate Flares In Commons On Rail Rates; Call For Test Vote

OTTAWA (CP)—The tinder-dry issue of freight rates—an explosive question among those Canadians who live outside of Quebec and Ontario—flared in the Commons Wednesday and produced a motion of non-confidence in the government.

Already debated once this week, the issue came before the chamber a second time with Transport Minister Chevrier's announcement that the government is rejecting the pleas of seven provincial governments for a 30-day stay of the 21 per cent increase granted the railways last week.

Quebec and Ontario, enjoying lower freight rates, did not contest the award.

At the same time, Mr. Chevrier announced the government is ordering a general investigation into the entire rate structure.

There were scattered objections by both opposition and the government sides to the announcement, but the matter did not rest there.

C.C.F. Leader Coldwell moved an amendment calling on the House to express opinion that the government's failure to defer the increase was not in keeping with the best interests of the country, and said his party was willing to go to the country on the issue.

"The question is of such vital importance to the people of Canada that it should be decided by the people of Canada, if necessary."

"The motion promptly drew support from the Social Credit Party, with spokesman John Blackmore, S.C., Lethbridge, warning that the west might secede from the rest of Canada if it cannot obtain what it wants from this eastern capital."

Before the debate was adjourned, to be resumed tomorrow or next week, two Progressive Conservative members expressed

their disapproval of the C.C.F. move, although they agreed there was a need for equalization of the rate structure across the country.

The freight rate issue overshadowed a secondary debate which arose on third reading of a government bill to subsidize the gold mining industry to stimulate production and thus help ease Canada's shortage of foreign exchange. The measure finally was approved and now goes to the Senate.

In addition to Mr. Chevrier's freight rate statement, the chamber in the early stages heard External Affairs Minister St. Laurent, as House leader, indicate there would be an opportunity to debate private members' bills to legalize oleomargarine and to outlaw the Communist Party in Canada.

Mr. Chevrier made clear in his statement that the government's rejection of their pleas for a 30-day stay did not bar the provinces from going ahead with their appeal.

He said the government's projected inquiry, which will be made by the Board of Transport Commissioners, the same body which granted the increases, will be a "thorough investigation" aimed at levelling off "inequalities which may exist in the various regions across Canada" and bringing about a "fair and reasonable" rate structure.

The investigation would be subject to the statutory provisions affecting freight rates known as the Maritime Freight Rates Act and the Crow's Nest Pass Agreement. These establish low rates on certain commodities in the areas affected.

Thomas Reid, Lib., New Westminster, said he wanted to see the board given specific power to remove British Columbia's "mountain differential" on hauls over the Rockies. This rate increases the rate on certain goods going over the mountain area.

## General Freight Rate Inquiry May Be Launched In Two Months

OTTAWA (CP)—Machinery for Canada's first general freight rate inquiry in 23 years will start rolling immediately.

But it is still anyone's guess as to when hearings will start on the government-launched investigation aimed at equalizing the impact of rail charges from coast to coast.

Officials of the Board of Transport Commissioners said they would start study of the terms of reference laid down Wednesday by the cabinet but that much work in planning procedure would be necessary before the gathering of information could be started.

Probable guess is that hearings may open about two months from now.

As to how long they may last, the estimates range from between one and two years to a facetious stab at 10 years given the Commons Wednesday by George Cruickshank, ebullient Liberal member for Fraser Valley in British Columbia.

It took the Board of Railway Commissioners two years to complete the inquiry started in 1925. That one resulted in a general overhaul of the rate structure.

An overhaul of the same scope as the 1925 investigation is contemplated in the present one.

The government has asked for a "thorough" probe, with a view to the levelling-off of any inequalities.

The Board of Transport Commissioners spent 1½ years on its inquiry into the railways' application for higher rates, which culminated in a 21 per cent award last week.

In the new inquiry, it will deal with a multiplicity of problems, centring largely around claims of various regions that they are being treated unfairly as compared with other areas.

In the 1946-48 inquiry, the question was one of merely superimposing a percentage increase on the existing freight structure.

In the projected one, it is that of taking apart the very foundations to determine if they are on a stable basis and then putting them together again so that the impact of rates is levelled off generally.

It is expected much of the commissioners' work will involve on-the-spot inquiries in the various regions looking for adjustment in their rate levels.

The two central provinces held aloof from the last case.

But in the renewal of freight rate battling it is likely the two big provinces will want to guard themselves in the infighting.

## Polish Gifts To British M.P.'s No Found So Sinister

LONDON (CP)—Those Easter gifts from a "foreign power" were not so sinister after all—just a couple of hard-boiled eggs and some wine.

They were hand-painted eggs in old Polish tradition. But from the flurry in the House of Commons Wednesday they might have well been loaded with dynamite.

One member questioned the international implications, the Speaker of the Commons gravely expressed "embarrassment," and the Polish Embassy went into a harried huddle.

The question was raised by Quentin Hogg, Conservative, who said 24 gift parcels had been delivered by the Embassy to the Commons cloakroom, accompanied by a selective list of members.

Hogg, who didn't get one, said the parcels "quite obviously were bottles of liquor."

He wanted to ask the Speaker whether it was desirable to receive gifts from foreign powers.

LOOKED INSIDE

As a lively debate started, Geoffrey Bing, Labor member for Hornchurch, peeked into the parcel he had received. In it he found the eggs and a small bottle of wine.

Bing's parcel was one of 14 distributed before the Commons staff remembered an ancient ruling that only one parcel may be delivered to each member through cloakroom facilities.

The embassy said sorrowfully it had been "misinformed about the procedure." And there was nothing selective about the gifts—they were just for members who had visited Poland.

A. A. Allen, Labor member for Bosworth, said his parcel was accompanied by a letter apologizing for the Easter eggs being late but promising he would find the contents "highly nutritious."

## Baby Christened Aboard New Carrier

BELFAST (CP)—A Canadian baby was christened today aboard the newly-commissioned H.M.C.S. Magnificent in water from the ship's bell.

She is 14-months-old Almee Lee Malcolm, daughter of Lt. Cdr. K. I. Malcolm of the 15,000-ton aircraft carrier's complement. The ceremony was performed by Rev. H. R. Pike, the vessel's Protestant chaplain.

Mr. Pike lives in Edmonton. Mr. Pike is from Halifax.

## Suicides With Bomb

LOS ANGELES (AP)—Charles Hunter, a lonely, old man, blew himself to bits Wednesday with a crudely-fashioned bomb that wrecked the offices of the state industrial accident commission. Four persons were injured in the explosion. Hunter, 65, lost his left arm in an industrial accident in 1927. The commission was paying him \$6.57 a week disability and had under consideration his application for a lump sum settlement.

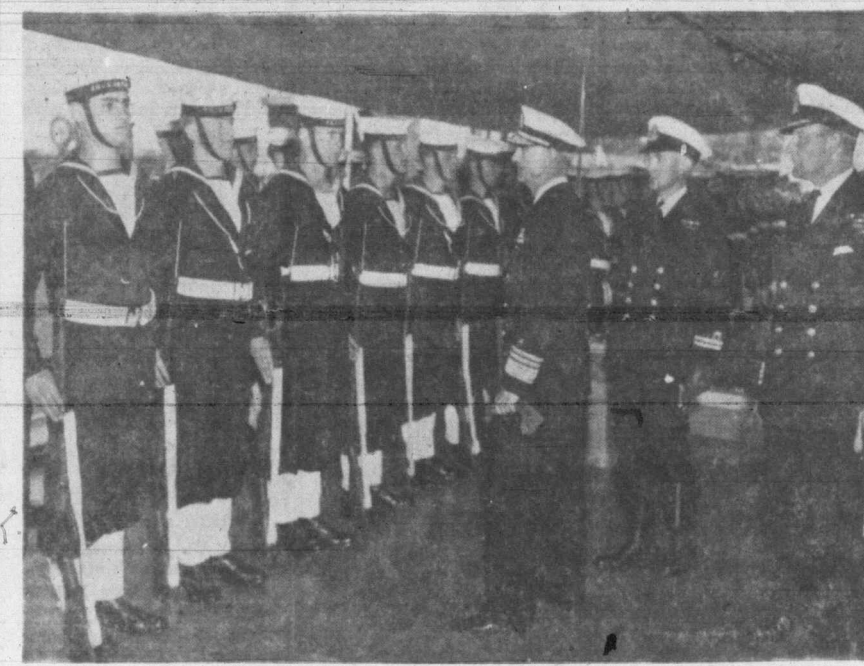

## Must Answer Contempt Citation

John L. Lewis, right, at headquarters of the United Mine Workers of America in Washington, accompanied by William Burke, secretary of the union. Lawyers for Lewis, president of the U.M.W., in court next Monday will oppose issuance of an order of contempt against Lewis because he failed to call off the 25-day-old pension dispute work stoppage in coal fields of the U.S. Attorney-General Clark applied Wednesday for such an order.

NEA Telephone.

## U.S. Admiral Visits Cruiser Ontario

During the visit of the Canadian cruiser H.M.C.S. Ontario to San Pedro on her present training cruise, Vice-Admiral Walter S. Delany, U.S.N., commanding officer, American battleships and cruisers, inspected a guard of new entry seamen on Ontario's quarterdeck. At right of Admiral Delany is Lieut. T. McDermid, R.C.N., Saskatoon, officer of the guard, and Capt. James C. Hibbard, D.S.C., R.C.N., Victoria, commanding officer of Ontario.

## Weather

Weather today and tomorrow, valid until midnight, April 9.

Synopsis—Below: normal temperatures have again been recorded in almost all regions of B.C. Lowest temperature was recorded at Prince George where the mercury fell to 5 during the night, 20 degrees below the average for early April. Variable cloudiness is present in the coastal areas this morning with clear skies in most of the interior regions. There is little indication of any marked change in conditions during the next 48 hours.

Vancouver and vicinity, Lower Fraser Valley, Straits of Georgia—Clear, becoming cloudy over the mountains this afternoon. Clear tonight and variable cloudiness Friday. Winds light. A little warmer.

West Coast Vancouver Island—Overcast with occasional light rain today. Cloudy tonight and Friday. Winds light. Little change in temperature.

## 'Informal Visit'

The U.S. Navy announced at Washington that a task force under command of Admiral Richard J. Conolly (above) will visit Norway late this month. Led by a heavy aircraft carrier, the force will be on what is termed an "informal visit" although observers say it will also constitute a show of power to dissuade the U.S.S.R. from attempting to put pressure on Norway.

## 405 Infants Die

SHANGHAI (AP)—Bodies of 405 Chinese infants were found on Shanghai's streets in the first week of April. Most of them were victims of an epidemic of measles. Bodies of 26 adults also were found.

## 300 Immigrants Land

HALIFAX (CP)—The United States passenger ship Marine Marlin arrived today with 300 new Canadians from displaced persons camps of Germany.

## ANNOUNCEMENTS

An Unusual B.C. Indian Affairs meeting Friday, April 9, 8 p.m. Provincial Museum, Miss J. E. M. Bruce reports U.B.C. conference. Large Victoria delegation, discussing urgent need local action. Public invited.

A salvage collection for Fairfield, Fernwood and Mt. Tolmie, E 3413.

Arion Male Voice Choir will present their 57th Annual Concert Thursday, April 15, at 8.30 p.m. in the Empress Hotel Ballroom. Joan Milloy, pianist, assisting artist; Eric Hulatt, conducting.

Chiropodist, W. J. Fraser, D.S.C., 201 Pemberton Bldg., B 3252.

Chiropodist: D. B. Caird, D.S.C., 723 Fort, Phone B 3732.

Dr. A. B. Nash and Dr. G. W. Robson announce that they are no longer associated in practice.

Golden Anniversary Tea, Aged and Infirmed Women's Home, April 10, from 3 to 5 p.m. Silver collection.

Massage, electricity, reducing, colonic irrigation. Adults, children all ages. Estella M. Kelley, 501 Union Building, 612 View Street. E 9121.

Old Time Dance, Lake Hill Hall, Scafe's orchestra, 9 to 12. Every Saturday night.

Picture Framing in Perfect taste by Diggen's.

## George Jessel Producing Movie; To Appear In It

By BOB THOMAS

HOLLYWOOD (AP)—George Jessel, producing pictures for the last few years, is going to appear before the camera for a change.

The comedian, now producing "Burlesque," plans an independent picture on the life of song writer Fred Fisher and he'll also make an appearance in it. Jessel's last film work was during the transition from silent to sound. At that time, he was set to do the Warners' film version of his stage hit, "The Jazz Singer." But disagreements arose and a guy named Al Jolson did the picture.

## MAKE-BELIEVE BALLROOM

Betty Grable and Harry James decided not to buy a beach ballroom, reasoning that the lame condition of the beach business would make it a shaky venture. Harry has given up touring for awhile, devoting his time to local week-end dates and his air show.

Ty Power is a busy lad these days, this time with picture making. He is to fly to Sun Valley for "That Wonderful Urge" locations. Then he will return to complete the unfinished Irish picture (a fourth title is coming up). After finishing the two comedies, he will head for Rome and "Prince of Foxes" (if all goes well in Italian elections).

## TABLES TURNED

Old-timer Chester Conklin is in the "Burlesque" cast. "The Gay Intruders," we can hope, may put an end to the psychological film cycle. It's about a couple who consult psychiatrists. The latter end up shot full of neuroses.

Babe Ruth will arrive this week to advise on his film blog. He won't appear in the film (that would be too confusing) but he'll make a trailer for it.

## Molotov May Lose High Soviet Post, Says London Paper

LONDON (AP)—The weekly magazine News Review said today that removal of Foreign Minister Molotov of Russia "may shortly have to be considered a possibility."

The magazine said "not much reliable information seeps through the Iron Curtain, but it is believed an adjustment in Soviet foreign policy has been under discussion in the Kremlin during the past few weeks."

News Review said Molotov was criticized by other members of the Politbureau at a Moscow meeting last February on the grounds that he had involved the Soviet Union "in a series of commitments which were having a diversionary effect on the country's own international reconstruction, was dissipating energies which could be better applied at home and had brought into existence a vast, anti-Soviet fifth column which was smuggling important information and key personnel to western Europe."

## Resignation Refused

BANGKOK, Siam (AP)—Premier Khuang Phiwong resigned under military pressure Wednesday night, but the state supreme council refused to accept. The premier immediately summoned his cabinet to determine his next step.

## Professor Ends Life

TIEN-TSIN, China (AP)—The suicide of a badly-paid professor was reported today, incidental to strikes of faculty members at several north China universities. They are trying to get their salaries increased.

## \$725,000,000 Asked For U.S. Air Forces

WASHINGTON (AP)—President Truman asked Congress today for an immediate appropriation of \$725,000,000 for expansion of the air forces.

The House of Representatives appropriations committee, to which the President's request was directed, called a special meeting for this afternoon to consider the request. It plans to report to the House next week a bill carrying the new funds.

The additional money is for use during the fiscal year starting July 1.

It is part of an additional \$3,000,000,000 to be sought for overall defence purposes for the next fiscal year.

## Tender, Aching Perspiring Feet

In just one minute after an application of Eucalyptus Oil you'll get the surprise of your life. Your tired, tender, aching, burning feet will literally jump for joy. No fuss, no trouble, you just apply a few drops of the oil over the surface of the foot and the relief is yours. It's a simple wonderful way it acts on all foot misery, while for feet that sweat with an offensive odor, there's nothing better in the world. It's a splendid formula—this combination of essential oil and camphor and other antiseptics so good that thousands of bottles are sold annually to help soften up corns and callouses. David Spencer, Limited sells lots of it.

**BRAN BACON MUFFINS**

2 tablespoons shortening	1/2 cup milk
1/2 cup sugar	1 cup sifted flour
1 egg	1/2 teaspoon salt
1 cup All-Bran	2 1/2 teaspoons baking powder
1 cup crisp, dried bacon	

Cream shortening and sugar thoroughly. Add egg and beat well. Stir in Kelllogg's All-Bran and milk. Let soak until most of moisture has been taken up. Sift flour with salt and baking powder. Add bacon. Add to first mixture and stir only until flour disappears. Fill greased muffin pans two-thirds full and bake in moderately hot oven (400° F.) 25 to 30 minutes. Makes 9 muffins.

Just wait until you taste the flavour of crisp bacon all wrapped up in a light, tender muffin made with toasted, nut-sweet All-Bran! It's luscious. Get Kelllogg's All-Bran today! Try these taste-tempting muffins tomorrow. Clip the recipe now!

## Mining Institute's Convention At Vancouver Largest On Record

VANCOUVER (CP)—Tremendous potentialities of the oil fields of Alberta, radium of the Yellowknife and nickel of Manitoba today are fragments of a greater Canadian economy.

"Mining molds a nation," said Hon. Charles McCrear, former Ontario Minister of Mines Wednesday as he saluted the jubilee convention of the Canadian Institute of Mining and Metallurgy.

"Men from east and west would do well to pay homage to this great industry," he suggested. Canada had gone on blissfully in its terrific growth and now should "glory in its action."

He linked Canadian expansion with the Sutter's Creek gold hysteria of '49 when miners first hiked into British Columbia and later insisted successfully that a trans-continental railway be built before the province entered Confederation.

The convention, which ends today, goes down in the records as the largest in the history of the Canadian Mining Institute. Delegates numbered 1,400, final registration showed, including 300 women.

Yesterday, president-elect R. W. Diamond of Consolidated Mining and Smelting Co. at Kimberley, B.C., said future mining will be an even more greater stabilizing in Canadian economy than ever before.

"It's a far cry from the salt mining in Nova Scotia to placer work in the Yukon to coal deposits in British Columbia, but the Canadian Mining Institute has a closely-knit structure," he said.

President-elect Diamond first received recognition from the mining industry 20 years ago when he introduced to Canada the flotation of sulphide ores.

## Most Reparations in U.S. Germany Zone Go To Russian Group

BERLIN (AP)—Russia and her satellites have grabbed the lion's share of industrial reparations from the United States zone of Germany, Gen. Lucius D. Clay, said in his monthly report today.

The American military governor said Russia, Czechoslovakia, Yugoslavia, Poland and Albania, have received 63 per cent of the reparations. He based his reckoning in monetary value.

Clay said that in the first two years of the reparations program these countries received from U.S. occupation zone factories 74,783,297 marks worth of equipment. The prewar mark was valued at 40 cents.

This was nearly twice as much as was delivered to 12 western Allied countries, which up to March 1 had received equipment with a combined value of 42,412,313 marks.

Russia alone collected about 30 per cent of the total—36,113,245 marks' worth.

This is the way he listed value for the satellites: Poland, \$845,672 marks; Yugoslavia, 22,232,942; Czechoslovakia, 7,003,285; Albania, 588,153.

Biggest receivers among the western countries were France, with 22,546,940 marks' worth; Belgium, 4,629,411; Netherlands, 4,335,086; Britain, 2,847,397, and the United States, 174,659. The U.S. share was the smallest of any.

Russia has been getting factory equipment out of western Germany under an advance reparations account agreed to at Potsdam. This account is nearly

complete. When it is closed the Russians will get no more until they agree to carry out the Potsdam provisions for Germany's unification.

## U.B.C. Cagers Meet Alberta Next Month

EDMONTON (CP)—Dates for the western intercollegiate Olympic basketball trials were announced here today.

The University of British Columbia Thunderbirds will oppose the University of Alberta Golden Bears at Edmonton in a two-of-three-game series May 3, 4 and 6.

The winner will meet the University of Western Ontario quintette in the Dominion intercollegiate final at Toronto May 10. The same night the eastern and western Canadian Amateur Basketball Association senior men's finalists will play.

The two winners will meet May 11 with the possibility members of both teams will be picked to form an Olympic team. This outfit will sail from Halifax for England July 12 and will be overseas for six weeks or longer.

## To Teach Journalism

LONDON, Ont. (CP)—The University of Western Ontario announced today that Mrs. Isabel Dingman of Windsor, Ont., widow of J. J. Dingman, prominent Canadian newspaperman, has been appointed instructor in the U.W.O. journalism course. She will start her duties in September. Mrs. Dingman is well known as an art critic.

## British Tories Claim Municipal Elections Show Swing From Labor

LONDON (CP)—Election returns from the political backwoods are cited by the Conservative Party's national headquarters to support its claim Labor has been given another setback.

In urban and rural district elections which started Saturday and still have to be completed in some areas, Conservatives say they have gained 265 council seats and lost 19, while Labor lost 240 and won 99.

## NO GENERAL RECORDS

A Labor Party statement said returns, available hardly as proof there has been a radical change in favor of the Conservatives.

Records of district council elections on a national basis never have been kept thus far. Morgan Phillips, Labor Party secretary, said there were more than 9,000 councillors who did not contest the elections and were returned unopposed.

The most complete statistics have been assembled by the Conservatives, who said the elections were for 2,572 seats. On the other hand, the Association of Urban District Councils said it did not know how many vacancies were to be filled.

All parties agreed the elections in many districts were fought with extraordinary vigor. Conservatives have developed organizations to fight local government elections after the national headquarters came to the conclusion the vigor of local Labor groups was a factor in the Socialist victory in the national election in 1945.

## BEGAN IN NOVEMBER

Results of Conservative activity became evident in the municipal borough elections in November when they gained 643 seats and Labor lost 695.

One result of intensified interest in local elections will be the assembly of detailed statistics which in the future will show more exactly the number of seats at stake and the terms of office on various councils.

District elections were for councils which administer public health and highway regulations and have certain powers under

## Liberals, Conservatives In Move Against C.C.F. In Saskatchewan

REGINA (CP)—An anti-C.C.F. combination of Liberals and Progressive Conservatives that has flickered across the Saskatchewan political scene for more than a year was strengthened Wednesday night when Regina Liberals voted to nominate only one candidate in the two-member Regina City provincial constituency.

Conservatives in the city last year agreed to a similar move. The nominating convention—

which chose W. J. Brown, Regina lawyer and president of the City Liberal Association, as candidate—means that Liberals and Progressive Conservatives each will run a single candidate in an attempt to take the two Regina seats from the C.C.F. in the next provincial election.

Likely opponents are two C.C.F. and two Social Credit candidates. Similar action was taken last year by Liberals and Conservatives in Saskatoon—another two-member riding—and in three provincial constituencies both parties have agreed to support a single candidate.

Only a few scattered hands among the more than 1,700 people at the Regina convention were raised against the motion to run a single candidate.

W. G. Van Edmont, a Regina architect, said in support of the move, "What's the difference between a Liberal and a Tory? Not a thing."

It is considered probable the Conservatives will nominate A.

Embury, armed forces member of the Legislature, while a C.C.F. nominating convention later this month probably will pick Labor Minister C. C. Williams and Provincial Treasurer C. M. Fines—sitting C.C.F. members—to contest Regina in the provincial election which Premier T. C. Douglas said is coming "fairly soon."

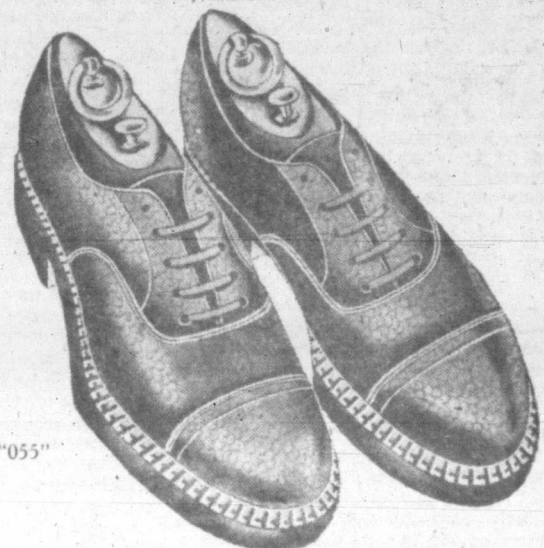

The C.C.F. now holds 47 seats in the 55-seat Legislature which has five Liberal and three armed services members.

## SOMBRE OUTLOOK

**A PART FROM THE MINOR IRRITATION** of such occurrences as the Soviet interference with train traffic between Berlin and the western occupied zones of Germany, it has been apparent for some time that the continuation on its original basis of the Four-Power Control Commission to administer the country of the defeated enemy nation was highly unlikely. The Russians' refusal to take active steps in uniting the country, their resentment of British and American efforts to unify the zones and establish economic stability, and their recent boycott of the joint Control Council in Berlin were concrete indications of the trend. In the face of such developments, indicating as they did the likelihood of a more serious cleavage, it was to be expected that the western occupying powers would draw up plans for the future of western Germany as a separate entity if such a situation became unavoidable. That point, it would seem, has now been reached.

Against a background of rumors that Russia will announce the creation of a separate German state on the east side of the Iron Curtain, the Military Governor of the British occupation zone, Sir Brian Robertson, has addressed a German audience in terms which indicate western recognition of the fact of a partitioned Germany. He told the Parliament of North Rhine-Westphalia that the division into east and west must be accepted "for the time being," that they must get along for the present with only two-thirds of their country—the western section—existing as a unit, and that the "day is not yet" when the nation can be completely unified through the expression of "the real will of all the people."

Observers in Frankfurt have interpreted the speech as the first definite statement by a western authority that partition must be accepted as a reality, and that hopes of restoring the country to its former political status must be abandoned. If partition is brought about, the effect on the Germans will be pronounced. The eastern third of the people that Bismarck welded into a single nation in 1871 will go the way of the Soviet Union—Communist, directed by Moscow, cut off commercially and culturally from the western body, its economy mainly agricultural, its development along Eastern, Slavic lines. The western section, on the other hand, will continue under democratic auspices, its heavy industry probably socialized, its political forms modeled on those of the West, its trade contacts developed with those countries which border the Atlantic. No greater cleavage of a people previously united could be imagined, nor could a situation be created which more encouraged the rise of a future national hero, whose "destiny" it would be to unite the parts which formerly had been a nation, whose ambition it would be to exploit the difficulties which inevitably would arise.

## A NEW WEAPON

**IF ANY PROOF WERE NEEDED,** THE performance of the officers and men of the Royal Canadian Navy in the Second World War furnished adequate evidence that they are entitled to the best that can be provided in the way of equipment. Their record in the crucial Battle of the Atlantic, as well as in briefer but equally meritorious actions, showed that the men of this Dominion could make full and effective use of their weapons. There will be keen interest, therefore, in reports of the commissioning of the new aircraft carrier *Magnificent* at Belfast, a modern, 18,000-ton air-sea striking arm which will sail in June for her permanent base at Halifax. This latest development in light carriers will be a worthy addition to Canada's sea forces, now on a restricted peacetime basis. The state of the world today is not one in which a nation, no matter how desirous of peace, can afford to ignore the need of speaking for her rights with a voice that commands respect.

## FIRE DANGERS MULTIPLIED

**DURING RECENT MONTHS,** EMPHASIS has been laid in these columns on the exceptional dangers from fire that arise from the overcrowded condition of housing in this community. Time and again the fire chief has drawn attention to the risk potentialities that are increased by multiple use of structures which have actually outlived their usefulness but are pressed into service now because other living accommodation is not available.

Yesterday two young women were taken to hospital with severe burns as the result of efforts to light a kitchen range with gasoline. We mention this, not because we lack sympathy for the individuals who were injured, but because it is a striking illustration of the unnecessary chances people very frequently take in respect of fire. Use of such highly combustible material for fire lighting is the basis of a hackneyed joke. Yet people of the age of discretion are still prone to ignore the dictates of common sense in coaxing a blaze in their stoves. The all too frequent results of such efforts are

clearly illustrated by the accident in the Quadra Street house.

The misuse of gasoline, however, is only one of a number of dangerous practices which can place lives in jeopardy under the specific conditions which exist in Victoria at this time. There are many others, not the least among them the storage of oily rags and waste, neglect of electric wiring safeguards, and disregard for dangerous chimneys. Tragedy can strike suddenly as the result of negligence in these particulars. And until such time as families can enjoy the amenities of their own homes without the congestion that now prevails, it is doubly important that every precaution be taken to reduce the obvious hazards.

## SATISFACTORY WORK

**VICTORIA'S POLICE DEPARTMENT,** not infrequently the target of private criticism, this week has earned the approval of the public in general through the expeditious solution of safe robberies which occurred in recent days. It is only fitting that appreciation should be shown for the efforts of those who have been able to recover the loot and who have assisted in the apprehension of individuals concerned in the thefts.

In preference, however, to the policy of singling out individuals for particular praise, it seems to us that the department should receive omnibus credit. Some members, no doubt, merit higher commendation than others. But we like to think of our Victoria force as a team in which each makes his contribution to the best of his abilities and the sum total of co-operation spells success.

Few who have had court experience will be inclined to view the solution of crimes as the work of particular genius or to place too much credit on the popular versions of detection that gain wide circulation in comic strips, "thrillers" and radio scripts. With few exceptions achievement is the outcome of a great deal of tedious attention to details, wearying leg work and the logical piecing together of parts of the picture which form the clues. In the assembly of that material many men play a part. The degree of team-play displayed is an essential ingredient of group accomplishment.

The manner in which the stolen safes were recovered indicates co-operative action. It speaks well for the local force and deserves the appreciation of the public. The average Victorian, we suggest, will be satisfied with this display of integrated effort, and will be inclined to relinquish such fanciful figures as Dick Tracy and the Thin Man to the cartoonists and the radio and moving picture script writers, whose creations they are.

## MEDICAL FACULTY

**THERE WILL BE GENERAL APPROVAL** of the announcement that plans for a medical school at the University of British Columbia are to be carried out without delay, with opening of the new department scheduled for the fall of 1949. The project has been under discussion for some time, with considerable postponement arising from lack of agreement as to the facilities required and their location.

Foremost among the debatable points was the site of a hospital proposed for operation in connection with the school, some experts favoring a separate institution on the University campus, others preferring that the clinical work be done at one of the existing hospitals in Vancouver. The matter has been left in abeyance, since students will not be ready for such work until 1951. The likelihood is, however, that for a number of years the facilities of existing hospitals will be used, with a campus hospital being erected some time in the future.

For the moment, the problem will be to provide three buildings on the University site. Two will be used exclusively by the medical faculty for lectures and laboratory work, and the third will be shared with other students studying biological science and pharmacy. An initial grant of \$1,500,000 made last year will finance construction, while provision will be made for annual appropriations running up to \$350,000 to cover operational costs.

Implementation of the plan marks another step in the progress of the Point Grey institution, and it comes partly as the result of efforts by a large group of students, both war veterans and others, who have worked for the provision of facilities to study medicine in their home province. Although the first class of graduates will not affect the shortage of medical experts for some years yet, the province will ultimately be assured of a flow of about 50 trained men each year, many of whom may be expected to continue their work on the Pacific Coast. The growth of medical aid insurance plans, extending adequate health services to increasingly greater numbers of our population, will demand a larger personnel in both preventive and curative medicine. This the new University faculty will do much to provide.

## SILENT SPEAKERS

**IT IS A MATTER OF SOME DISCUSSION** and interest that Victoria's feminine member this week was called upon by Mr. Speaker to preside over the House in committee of the whole. The incident is not without precedent. Once before a member of that sex temporarily occupied the Speaker's chair. The practice is unusual. But if any credence is to be placed in the theory that women do the talking, what could be more natural than that one should be the speaker in that, or any other House—unless it be that Mr. Speaker, or Madame Speaker, is the only member who is not allowed to talk.

## Present Crisis

By WICKHAM STEED  
Former Editor of The Times of London

**IF ORDINARY MORTALS** feel bewildered by the rapid sequence of events in the international crisis—for a crisis it undeniably is—and are anxious about its further course, I think they are hardly to be blamed. During the past month there has been a series of developments which have been more than "incidents" that has left us all a little breathless. We have not had time to take stock of one position before another supervened.

From February 20, onwards, Communist seizure of power in Czechoslovakia surprised and startled the western world. It was felt to be a challenge which the free nations of the west could not ignore.

**AT WASHINGTON,** legislative proceedings were speeded up to sanction the European Recovery Program; and at their conference in Brussels, the United Kingdom, French and Benelux delegates succeeded, with smooth swiftness rarely equalled in any international gathering, in drafting the terms of the economic, political and defensive pact of western European union, which was signed on March 17.

Yet even more swiftly came from Prague the tragic news of the death of Mr. Jan Masaryk, the Czechoslovak Foreign Secretary, who was deservedly one of the best-loved men in the world. I, who had been his friend for 28 years as I had been a friend of his father, the President-liberator, for a still longer period, am convinced that Jan Masaryk ended his life because he could not bear Communist pretence that his father would have approved of the destruction of Czechoslovak democratic freedom.

**THE EFFECTS** of Jan Masaryk's death could be seen in the prompt agreement at Paris between the 16 states interested in the European Recovery Program, and also in the conclusion of the Brussels Treaty of Western Union. I fancy, too, that they may have influenced the decision of President Truman to address a joint session of the United States Congress at the very moment when the Brussels Treaty was being signed. The President's promise that the United States will aid the free countries of Western Europe in the defence of their freedom, a promise loudly cheered by the whole Congress, and his emphatic call for universal military training so that his country may be better fitted to withstand any further threat to its liberties, can only have sprung from the conviction that the present threat is insistent and real.

Are we therefore in sight of another armed conflict of the third World War? No prudent observer of world affairs will deny that the danger exists, nor will he affirm that it cannot be averted. Soviet Russia alone could answer this question decisively; and hitherto there have been no means of judging what her answer is likely to be.

**PRESIDENT TRUMAN'S** address to Congress was a serious indictment of Russian policy since the end of the war, but it left no room for doubt that neither the United States nor the Governments of Western Europe have closed or wish to close the door to an agreement with Soviet Russia on any terms that will safeguard their own freedom and foster peace. General Smuts, the great South African statesman, has called for a frank and friendly talk with Russia as "from man to man," and Dr. Evatt of Australia has claimed that the United Nations, not "power politics," should be used as the path to an understanding.

With the arguments of these eminent and responsible men everybody who cares for peace must be in substantial agreement. My only comment upon the proposal of General Smuts is that talk from man to man assumes that those who talk can speak the same language, or at least languages which can be accurately translated.

**HERE LIES** the difficulty in dealing with Soviet Russia. Her rulers speak and appear to think in terms of Communist ideology which nobody has yet succeeded in translating into the idiom of Western democratic freedom. And Dr. Evatt's proposal that the United Nations be employed to bring about an agreement seems hardly to take sufficient account of the fact—recorded in President Truman's address—that in the past year or two the Russian veto has been used 21 times to prevent agreement.

My own answer to the question whether we are in sight of another armed conflict is tentative. It is hedged about with "buts and ifs." If certain conditions are fulfilled I should answer "No." But if those conditions be not fulfilled I cannot say that I should regard peace as the major probability of the future.

**THE FIRST CONDITION** is that the free nations of the West, including the United States, should remain absolutely firm in their determination to face the risk of war rather than tolerate the undermining or the destruction of the principles of human liberty on which their civilization is founded, and that they should allow no doubt to arise on this score. The second condition is that their policy should be open-eyed and circumspect, never yielding to a temptation to gain a merely tactical advantage.

If peace is to be denied we cannot be expected to stand by inactive. Ernest Bevin, British Foreign Secretary, warning Molotov against delay in working out Germany's future.

## They Always Do It Once Too Often

## Truman—Inevitably The Target

By PETER EDSON from Washington

**THIS** beating that President Harry S. Truman gets is really something. But when you add up the crimes of which he is accused, they amount to simply this:

He has been opposed to a tax cut all along because he believes: (1) That the national debt should be reduced while national income is high. (2) That national defence is going to cost a lot more money which should come out of taxes, not from borrowing.

People who object to this policy are in a funny position. They used to criticize Roosevelt because he ran up the debt. Now they criticize Truman because he wants to pay it off as fast as possible.

The President thinks there ought to be a federal law against lynching people. He thinks the poll tax should be abolished as a requirement for voting in federal elections. Only seven of the 48 states still have poll taxes.

## AGAINST JIM CROWISM

The President thinks there should be a Permanent Fair Employment Practices Commission, to prevent "unfair" discrimination. Not all discrimination—just "unfair" discrimination. He thinks Jim Crowism should be eliminated on interstate transportation. He doesn't say on local buses and streetcars—just those which cross state lines.

For these four and six more

general civil rights proposals like admitting Hawaii and Alaska to statehood, giving District of Columbia citizens the right to vote and admitting Orientals to citizenship in this great "melting pot" country that is now trying to save the rest of the world for democracy, the President is threatened by revolt from within his own party.

## INCONSISTENT

Truman's proposals for U.M.T. and a temporary draft law to build up the armed forces and reserves are criticized with about the same degree of consistency. The President is panned by his opponents because he didn't ask for more air power. In any defence program, however, the first requirement is man power. There isn't any use ordering more planes or tanks or guns unless there is trained man power to run them.

The President has now announced that he will send a special message to Congress on military preparedness. He has been criticized because he has proposed only economic aid for Western Europe—not military aid.

If the President now calls for a costly international rearmament program and it goes through along with economic aid, an additional strain will be put on U.S. resources of foods, raw materials and manufacturing capacity. Under such increased demand prices are apt to be

forced still higher. Last November the President asked for authority to put emergency controls on prices where needed. His opposition said he wanted to set up a police state. He has been lambasted all over the lot for wanting to prevent further inflation.

## ON PALESTINE

The President is also taking a shellacking on foreign policy, particularly on Palestine. There are plenty of reasons why the original Palestine policy should not have been adopted. Partition has never worked. It took guts to admit this policy wasn't working and that a mistake had been made. But is there any reason why a foreign policy shouldn't be abandoned if it isn't working?

While the Marshall Plan was criticized because it asked for too much aid, Truman's China policy was criticized because it didn't ask for enough.

All these shifts—if that's what they are—are criticized as the vacillating Truman foreign policy. But what is a man to do if he has made a mistake? Keep on making it? Or admit that he has been wrong and then try something different?

Harry Truman has his faults, as who hasn't? But when you add up the things for which he is now criticized—the most, it's a little difficult to see how he deserves all the particular punishment now being heaped upon him.

## As Our Readers See It

### IN APPRECIATION

On behalf of the Women's Auxiliary of the Jubilee Hospital, I wish to take the opportunity to thank all those who by their generous contribution assisted materially in making our tag day on Saturday the financial success it proved to be.

We greatly appreciate the assistance given to us by members of other organizations and by individual helpers. To the taggers themselves who worked so hard and so long under, at times, inclement weather conditions, we express our grateful thanks. The local papers, too, by their valued publicity, helped us in no small degree.

ANITA HUNTER,  
President, Women's Auxiliary,  
Jubilee Hospital.

### DAY OF REST

Our attention has been called to a news item in your paper of April 1, reporting a notice of motion in the Legislature by the Leader of the Opposition, regarding Sunday entertainment and sports.

We suggest this is a matter in which all citizens should be interested and upon which members of the Legislature should think clearly before committing themselves to a policy which would deprive citizens of their hard-won freedom from toll on Sundays.

In the enactment of the Lord's

Day Act of Canada the Parliament of Canada deliberately selected the elimination of unnecessary commercial activities on Sunday as necessary to provide a national weekly day of rest. That act is based upon that objective and through the years has provided a day of freedom for countless numbers of Canadian workers. It is desirable,

## Civilization

Washington Post

Mindful of the implications of the embryo crime wave in a Manhattan barroom attributed, uniquely, to the unceasing repetition of a juke box tune known as Civilization, the New York Herald Tribune, thinking perhaps of the earful of Hitler to which the Nazis subjected some of their distinguished prisoners, recently suggested that authors of puzzle songs henceforth be required by law to listen to their own compositions for six solid hours before they are released publicly. That, says the Herald Tribune with an air of finality, "would make it unlikely that any such song as Civilization would ever be published again; it would, in fact, make it unlikely that any popular song would be published. Nothing could be fairer than that."

therefore, that care be taken to protect these rights and privileges to the workers of Canada.

Within the provisions of the Lord's Day Act as it now stands there is ample freedom for individual initiative and personal recreation on Sundays, and it should be the desire of all good citizens to protect the rights of their fellow citizens in the exercise of similar freedom. Widening the present legal provisions is to invite an increasing spiral of Sunday employment, and any such action should not be taken hastily or without careful consideration of all implications.

For instance, the opening of theatres on Sundays for the entertainment of the public would mean requiring employees to sacrifice their freedom on the one day of the week they now have as their rest day.

GEO. G. WEBBER,  
General Secretary,  
Lord's Day Alliance,  
17 Queens St. E., Toronto.

## Global Survey

By DEWITT MACKENZIE  
Associated Press News Analyst

**THE** new Russo-Finnish mutual-aid treaty has been described by leading Finnish politicians as cementing the little Baltic republic tighter into the eastern bloc but preserving the country's sovereignty.

On the face of it that would seem to be so. Certainly there is no question about Finland being more firmly bound to Russia. However, because of the very fact it strikes me the wish is father to the thought about preservation of freedom—just as it may have been in the cases of the fiercely independent states of Bulgaria, Romania, Yugoslavia, Hungary, Poland and Czechoslovakia. Look at them now, sweating under the Soviet yoke!

### NO TIME FOR CONFLICT

Why should Moscow drop cave-man tactics in dealing with Finland? Well, for one thing the Finns likely would prefer to go down fighting rather than accept servitude by treaty—and the Bolsheviks can't afford to stir up a conflict of that sort at this critical juncture.

The Communist rape of Czechoslovakia is still a horrifying subject of anxious discussion about the firesides of western Europe, and the Reds want to let the matter die down. The Scandinavian countries of Sweden and Norway, lying close to Finland, are on edge. So is Denmark.

Then, too, the Muscovites are anxious to put their best side forward for the benefit of the Italian Communists in the forthcoming national election.

### BENEFICENCE

So Moscow is using Finland as a mirror to reflect the sun of Soviet beneficence and thereby blind free nations to what is going on. Actually the nature of the Russo-Finnish treaty doesn't alter one iota the fact that Moscow can take over the little country any time it wants to.

Of one thing we may be dead certain: There is no possibility whatever of Russia ever allowing development of a situation which would deprive her of control of Finland. That isn't merely a matter of a political aim. It's military.

Finland not only is a sentinel of the northern Baltic Sea but would provide a grand jumping-off place for anybody who wanted, say, to put heavy pressure on Scandinavia. You can bet your last dollar that Sweden and Norway aren't overlooking this fact.

### PLANNING AHEAD

The time is fast approaching when Britain and other importers of food will be able to pick and choose. Canada would be well advised to start planning to meet that new situation by getting quality up and costs down, and by opening new outlets for our agricultural surpluses, preferably in the United States.

### IN GOOD CAUSE

Windsor Star  
It's none of our business whether or not Americans vote President Harry S. Truman back into office again next year, or if not, why. But if the President should lose the election because of his firm stand on civil rights for colored folk, he'll at least have had his political throat cut in a good cause.

### TIPS AND TAXES

Edmonton Journal  
Now that the income tax department has descended on waiters, taxi-drivers, bell-hops and similar occupational groups, demanding that they keep a record of their tips and pay taxes on them, it is interesting to speculate on the results.

Who knows—the day may come when a free spender, handing 50 cents to a waiter or taxi-driver, may have it thrown back at him with the angry cry: "What are you trying to do—put me in a higher tax bracket?"

### LINIMENT REQUIRED

The Times of London  
Now is the time when the man who is not so young as he used to be privately admits as much and makes cautious resolutions for the future. Roused by the challenge of milder, sunnier days he essays some brave holiday task of walking or digging, and either fails ingloriously or—more likely—grimly and gallantly completes the course, muddy but unbowed. Unbowed, that is, until the morning after, when aching bones and bumptious juniors make it more than clear that the last two miles were too many, that the last row of peas had been better left for another day. Sympathy might soothe the sufferer's growing pains, but neither friends nor books have much to offer. His seniors think him a young fool and his juniors an old one.

## \$25,000 Each Month For Seismograph Oil Exploration

VANCOUVER (CP)—Canada has 550,000 square miles of areas suitable and favorable for oil prospecting, but an artificial earthquake must be created before the lucrative liquid bubbles into dollars.

And to create one ground-trembling, it will cost approximately \$25,000 a month.

The earthquake prospecting—known technically as the seismograph method—was explained by R. F. Welchert, Jr., of Imperial Oil, Toronto, in an address Wednesday at the 50th anniversary convention of the Canadian Institute of Mining and Metallurgy.

Mr. Welchert credited the seismograph method with the discovery of the seven productive oilfields in Canada's prairie provinces—including the recent and profitable oil strikes at Leduc and Woodbush, Alta.

Leduc, particularly, culminated a 20-year, \$29,000,000 search for oil in Alberta and Saskatchewan. Scientific prospecting—or geophysical exploration—played the all-important role. Last year alone, \$3,000,000 was spent in geophysical surveys on the prairies.

The seismograph method creates an earthquake by detonating a charge of explosive and the reflection of the earthquake waves from certain hard layers of rock deep beneath the surface, is recorded on delicate instruments.

Mr. Welchert said new seismic instruments are being studied in the laboratories of major oil companies in Canada and the United States and the geophysicist feels confident more contributions will be made to the discovery of crude oil reserves in the Dominion.

Oil production in Canada, almost directly due to scientific prospecting, increased from 60,000,000 barrels in 1898 to 1,917,000,000 in 1947.

**DIFFICULT SITUATION**  
Dr. F. W. Gray, former assistant general manager of the Dominion Steel and Coal Company in Sydney, N.S., and now retired in Victoria, told the 1,000 delegates Canada has a fuel situation "uniquely difficult."

A coal-mining engineer-executive, he blamed the mine operators' "lack of appreciation of the geologist" for Canada's current fuel problem, which has lately become a personal problem to thousands of Canadians.

"Coal mine operators seem to consider a geologist's work to be black magic," Canada has 22,000 tons of recoverable coal per square mile, but east of Saskatchewan there is less than 1,000 tons per square mile.

"The very large coal resources in the west (95 per cent of the Canadian total) cannot benefit our people unless they are used," added Dr. Gray. He urged the mapping of western coalfields be completed.

## Arctic Airmen Proud Of Flights South With Patients

WINNIPEG (CP)—An appendix can be exciting—add not deadly—in the Arctic today.

Aliments which once threatened residents of lonely northern outposts with death now often signal the start of far-flung and successful aerial rescue operations.

Record of R.C.A.F. search and rescue groups, in evacuating sick and injured persons from Arctic desolation to well-equipped city hospitals has brought the Polar regions within apparently easy reach of southern centres.

Search and rescue is a co-operative undertaking of the United States Army Air Force and the R.C.A.F. Proud of a record which includes dangerous flights, often under the most trying circumstances, the men of search and rescue say they never have failed yet in an emergency operation.

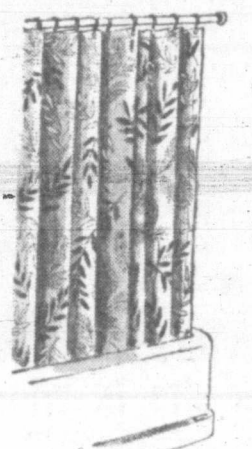

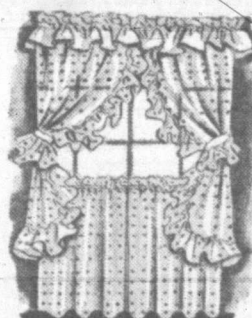

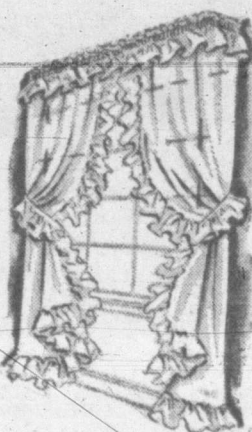

Even with modern aircraft, however, aerial penetration into the northland—which once was as impenetrable as its long winter night is cold—is dependent on favorable climatic conditions.

Evacuation to Winnipeg late last year of Canon John H. Turner from his Anglican Church mission post at Moffet Inlet, 400 miles within the Arctic Circle, was an example both of the delaying action of adverse weather and of the determination of air crews to reach its mercy mission objective.

Oak Bay council Wednesday evening received the resignation of L. A. Grogan from the zoning board and H. C. Holmes from the town planning commission.

**DAVID SPENCER LIMITED**

Mrs. W. T. Straith, second from left, with Mrs. F. G. Hart, Mrs. A. Waldon and Mrs. R. W. Mayhew, who were among the many guests attending yesterday's tea.

## Afternoon Tea Honors Legislative Wives

Bright sunshine, slanting through the long windows in the spacious living-room at the Rockland Avenue home of Mrs. W. T. Straith yesterday afternoon added a gay touch of spring for the afternoon tea at which the wife of the Minister of Education and Mrs. Robert H. Carson, wife of the Speaker of the House, entertained. Honor guests were wives of cabinet ministers

and, private members of the Legislature. Presiding at the tea table, which was centred with a lovely arrangement of tulips and daffodils, were Mrs. R. W. Mayhew, Mrs. A. Waldon, Mrs. Hugh A. McLeod and Mrs. Fred McGregor. Assisting the hostesses as servitors were Mrs. L. Straith, Mrs. J. R. Nicholson, Mrs. E. L. McNiven and Mrs. J. B. Munro.

Mrs. Wilfrid Ord has returned to her home at 1005 Cook Street from Vancouver, where she has been adjudicating Speech Art classes of the Cambrian festival.

A christening robe worn by her paternal grandmother and by her father was worn by the infant daughter of P.O. S. K. Henson and Mrs. Henson, 866 Craigflower Road, at her christening last Sunday. With Canon A. E. Greenhalgh officiating at the ceremony in St. Martin's in the Field Anglican Church, the baby received the names Marion Bertha. Godparents are Mr. and Mrs. F. Reid of Vancouver and Mrs. G. Parker of Winnipeg. Maternal grandparents are Dr. and Mrs. H. F. Vernon of Winnipeg. Following the ceremony, a tea was held at the home of the baby's paternal grandmother, Mrs. E. W. Henson, 313 Kerr Avenue.

Mrs. A. J. Lobsinger who, with her three children, has been staying at the home of her sister, Mrs. G. C. Parrot, will leave tomorrow to return to her home in Edmonton.

Mrs. L. H. Eyres, wife of the Minister of Trade and Industry, who was called to Verdun, Manitoba, on the death of her mother, Mrs. F. A. Sanford, returned to Victoria on Tuesday.

Victoria guests at the La Fortune-Aldersey wedding in Duncan yesterday included Mr. and Mrs. S. Cowan, Mr. and Mrs. N. R. Craig, Mrs. O. J. Williams, Mrs. W. E. Corfield and Mr. Francis Barber-Starkey.

Mr. and Mrs. A. J. Eaton entertained at an after-five party in their Ganges Harbor home on Salt Spring Island. Daffodils and other spring flowers were used to decorate the rooms. Miss J. Pearce assisted the hostess in serving 46 guests.

On the occasion of their silver wedding anniversary, Mr. and Mrs. C. E. Baker entertained at the tea hour at their home, Ganges Harbor, Salt Spring Island. The rooms were decorated with daffodils and the tea table centred with a silver and white cake. Mrs. F. Brodie presided at the urns. Other guests were Dr. and Mrs. E. Lawson, Dr. and Mrs. A. Francis, Mr. and Mrs. S. Holmes, Mrs. S. Wagg, Mrs. S. S. Alexander, Misses H. Dean, Mary Lees and Anna Lees.

Miss Audrey Ruffell, a bride-elect of this week, was honor guest at a miscellaneous shower given by Mrs. J. J. Porter at her home, 1338 Hillside Avenue. A corsage bouquet of roses was presented to Miss Ruffell, and her mother, Mrs. W. Ruffell, received carnations on corsage. Susan Jean Ross, granddaughter of the hostess, presented the gifts from a decorated wheelbarrow. Presiding at the urns were Mrs. W. Bolton and Mrs. Ruffell. Other guests included Mesdames E. Savage, G. Hartley, E. Alburt, L. Ford, H. Spencer, T. Hickman, G. Rumsby, G. Prescott, R. Jones, L. W. Westwood, J. Ross and the Misses L. Tait, Ella Bean, Jean Murray, Phyllis Muford, Patricia and Frances Prescott, Helen Robson, Lorraine Carruthers, Ruth Jackson, Maxine Bolton and Mary Leggett.

## Golfers And Other Visitors At Empress Dinner Dance

An international flavor was lent to the Empress Hotel dinner dance which last evening attracted over 400 guests, many of them participants in the C.P.R.'s 18th annual golf tournament.

Visitors came from Portland, Astoria, Tacoma and Seattle, with a large contingent from Calgary and others from as far as east as Winnipeg.

An atmosphere of spring pervaded the Crystal Ballroom with gay parties occupying tables centred with golden daffodils.

Dinner was served from 7:30 to 9:30 with dancing continuing until midnight to music by William Tickle's Empress Hotel orchestra.

In compliment to the many visitors from the prairies and from across the border, Mr. Tickle introduced the theme number, "Home on the Range." Other popular numbers were "This Is the Hour," "Manana," "Golden Earrings," "Tales of Vienna Woods," "Roll Out the Barrel" and "Let Me Call You Sweetheart."

### NO-HOST PARTIES

A large no-host party of Victorians included Dr. and Mrs. J. M. Ewing, Mrs. L. L. Brighton, Mr. and Mrs. R. T. Wallace Mr. and Mrs. Jack Noble, Dr. and Mrs. A. Wells, Mr. and Mrs. Lou Clarke, Mr. and Mrs. Grant, Mr. Ormand, Miss Dorothy Cruikshank, Mr. Gordon Fields, Mrs. Joyce McKay, Mr. and Mrs. W. H. Gaddis, Mr. Ed. Savannah, Miss N. Salamandick and D. Kirk. Others noticed were Mr. and Mrs. R. C. Parker, Mr. and Mrs. Gordon Verley, Mr. and Mrs. William Newcomb, Mr. and Mrs. Charles Mollard, Mr. and Mrs. C. E. Knudsen, Mr. and Mrs. Gordon Greene, Mr. and Mrs. M. W. Morrill, Mrs. G. W. McMurtry, Mr. C. L. Knudsen, Miss Mary Campbell, Mr. Don Campbell, Mrs. Charles Wilson, Col. Don McGowan, Mrs. Bert Crowe, Mr. and Mrs. Gordon Cameron and Mr. and Mrs. R. B. Mathews.

## Mrs. W. Rogers Again President

Mrs. William Rogers was re-elected president at the annual meeting of the Senior Subdivision of the Catholic Women's League of Canada held in the parish hall of St. Andrew's Cathedral on Tuesday evening.

Other officers are Mrs. S. Hunter, first vice-president; Mrs. P. C. Shaw, second vice-president; Mrs. Edward Bland, third vice-president; Mrs. W. J. Sullivan, corresponding secretary; Mrs. L. E. Ormond, recording secretary; Mrs. C. A. Mulcahy, treasurer; Mesdames W. Milligan, D. MacDonald, W. G. Martin, T. Hartnell, M. J. Haley and A. Battle, councillors.

In her annual report, Mrs. Rogers gave a resume of activities during the past year. Mrs. Legace, retiring treasurer, showed all national and diocesan obligations had been met; Mrs. Ormond gave the recording secretary and publicity reports and Mrs. Mulcahy, chairman of ways and means committee, briefly reported on finances.

Educational report was presented by Mrs. C. Couture, and included names of prize winners at St. Ann's Academy, St. Louis College and St. Teresa's Chinese Mission school, also announcement of a prize for each school in Christian doctrine, to be awarded at the diocesan convention in June.

Committee reports were given as follows: Mrs. W. Milligan, sewing; Mrs. Bland, hospital visiting; Mrs. W. G. Martin, citizenship; Mrs. P. C. Shaw, official League magazine; Mrs. J. Madeline Clay, study clubs and lay retreats; Mrs. Ormond, Indian missions, schools and hospitals.

A day of recollection on May 25 at St. Mary's Priory was announced by Miss Clay and Mrs. Mulcahy reported parcels of current papers and magazines had been remailed.

Child welfare report was presented by Mrs. M. J. Haley, secretary, St. Vincent de Paul's Auxiliary.

His Excellency, Most Reverend James M. Hill, Bishop of Victoria, gave the address on Catholic action, and praised executive and members for work in the parish.

It was reported that nearly 1,000 pounds of clothing and parcels of food, as well as substantial contributions of money to purchase food, had been forwarded to European relief centres during the past month, and further shipments are being collected and prepared.

The new executive announced St. Ann's Spring Fete on April 22, and a tea and musicale on April 26 in the Douglas Room at Hudson's Bay.

Refreshments were served by a committee of members and a social hour was enjoyed.

**Thank Offering**—W.M.S. groups of Centennial Church held a combined Easter thank offering service. Mission Circle, led by Miss Eleanor Brooke, was in charge of devotional exercises. The C.G.I.T., under the leadership of Mrs. R. J. Garner, affiliated with the W.M.S. in a candle-lighting ceremony, and later dramatized their study book. A duet was sung by Mrs. S. Sweetnam and Miss M. Samuelson. Guest speaker was Mrs. A. D. Gilvin, presbyterial president. Refreshments were served by the two auxiliaries.

## Silver Horseshoe For Luck Presented To Bridal Couple

As Mr. and Mrs. Philip Aubrey La Fortune left St. John's Church, Duncan, following their wedding on Wednesday, little Wendy La Fortune presented them with a silver horseshoe decorated with white heather.

The bride is the younger daughter of Mr. and Mrs. F. P. Aldersey and her groom, eldest son of Mr. and Mrs. F. La Fortune, Cobble Hill.

Easter decorations were used in the church for the ceremony. Rev. H. T. Archibald performed the ceremony.

A gown of white brocade tulle was chosen by the attractive bride, fashioned with high necked bodice and skirt en train. A floor-length veil was held with a coronet of seed pearls and she carried a bouquet of pink roses and pink carnations.

Her sister, Mrs. J. Barber-Starkey, was matron of honor, wear-

ing a gown of apple green tulle, fashioned in the off-the-shoulder style with floor length bouffant skirt. A matching bandeau held her hair and she carried a Colonial bouquet.

Paul Aldersey, brother of the bride, acted as best man in the unavoidable absence of the groom's brother, John.

A reception was held at St. John's Hall, where Mrs. Aldersey received the guests, assisted by Mrs. La Fortune, Rev. E. M. Willis, Cobble Hill, proposed the bride's toast, and many cables of congratulation from the bride's relatives in Scotland were read.

For a honeymoon in the United States, Mrs. La Fortune changed to a cherry colored suit with black hat and accessories.

On their return the young couple will live at Mill Bay.

## P.T.A. News

**Happy Valley**—Plans were made for an afternoon tea to be held in the school on April 23, at a meeting of Happy Valley Parent-Teacher Association. Proceeds will be used for the school picnic. A moving picture show is announced for May in Luxton Hall to raise money for the picnic. A meeting of mothers of teenage girls will be held under auspices of the association, to discuss the suggestion made by W. P. Hobbs, for a handicraft class. Films were shown by J. Lincoln and refreshments served.

**Ganges, I.O.D.E.**—Mrs. V. C. Best, regent, presided at the recent meeting of Ganges Chapter, I.O.D.E., held at Ganges Inn, Salt Spring Island. Treasurer's report showed a balance of \$47.18 on hand. Arrangements were made to hold a card party at Mahon Hall on April 28, when there will be hostess tables of bridge, whist and cribbage. Conveners elected were Mrs. C. Springfield, Mrs. E. Adams and Mrs. R. Britton. It was decided to commence the weekly home cooking stalls at Ganges wharf, the first week in May. Tea hostesses were Mrs. R. Britton and Mrs. E. M. Duke.

**Sooke-Milne's Landing**—Members of Sooke and Milne's Landing P.T.A. sponsored an evening of entertainment last Saturday in Sooke Community Hall. Those taking part included Gail LaJeunesse, Maxine Neil and Lorraine Shields, who gave a tap dance, and Maxine Neil, soloist. Little Linda Shepherd was a ballet dancer, and Mrs. Bonnie Arnet was accompanist. Other items on the program included a vocal solo by Miss Elaine Shields, who was accompanied by Stanley Cains. Dancing was enjoyed to music of the old-time orchestra, and refreshments were served. Next meeting of the P.T.A. will be held Monday at 8 in Milne's Landing High School.

**Chi Rho Fellowship** party to-night at 8, at the home of Miss Margaret Harness, 1777 Hampshire Road.

**Liberal Women's Forum**, Friday at 2:30, Y.W.C.A.

## Women's Speech Mechanism Is More Rugged Than Men's

NEW YORK (AP) — Women, says an authority on speech, are better equipped than men to talk easily and well. Their speech mechanism is more rugged.

This is probably the reason why fewer girls and women have speech defects than boys and men. Girls generally learn to talk sooner and more easily than boys. Whether the better voice mechanism may account for any tendency for women to be more talkative is an entirely different issue.

About 4,000,000 Americans have speech troubles of some kind, says Dr. Martin F. Palmer, president of the American Speech Correction Association, and director of the Institute of Logopedics at Wichita, Kansas. Logopedics is the study and treatment of speech defects.

One of the most common troubles, he said in an interview, is stuttering. About 1 per cent of Americans stutter to some degree, and three times more males than females stutter.

Oddly enough, most stutterers can sing well without any sign of stuttering, he continued, because singing involves a different part of the brain than talking. So some stutterers benefit at least temporarily by trying to sing or time their words. But when the singing becomes habitual the stuttering is likely to recur.

There are many different ways to correct stuttering, and about 90 per cent of cases can be relieved if their attention can be distracted from the mechanism of stuttering.

ism of stuttering," Dr. Palmer said. "The best success is achieved when the stutterer isn't conscious of the correction method that relaxes him or permits a new adjustment. I don't know of any method which brings a permanent correction."

### SICKNESS IMPAIRS SPEECH

Speech begins to develop at birth, Dr. Palmer continued, and is a process of learning by stages or steps. Sometimes sickness or injury can delay or inhibit the next stage of learning, but usually by the age of three a child's speech mechanism is set.

Some defects, like cleft palate or hair lip, develop before birth. Surgery often can correct the physical trouble. When the corrective surgery is performed by the time the child is six months old, his speech quite probably will develop normally, Dr. Palmer said. In older children, speech training may be necessary.

Children or adults who have lost their voice-box, the larynx, sometimes can be taught to speak with their esophagus, by swallowing air and forcing it out. They may become proficient enough to say three or four words at a time. Various mechanical devices also are used.

Much more different are cases where the brain or nerves have been injured, producing spasms or paralysis. They can produce various kinds of effects on the co-ordination centres of the brain. Children with such afflictions may be intelligent, but are unable to communicate and are

often regarded as dull, Dr. Palmer said.

But by medical care and long speech training, some of them can be improved. Other areas of the brain and other muscles can be trained to do at least part of the work normally done by those which are out of order. One boy who has spastic paralysis now is a university student studying for his master's degree. He still does not walk normally and his speech is still somewhat slurred.

## Clubwomen's News

**Plan Garden Party**—Members of the Women's Auxiliary to the Prince Edward Branch of the Canadian Legion, at a recent meeting in the clubrooms, discussed plans for the annual garden party in June. It was also decided to co-operate with a branch garden party in Victoria in the summer.

**Assist Camp**—At a meeting of St. Matthew's Guild, held Wednesday afternoon at the home of Mrs. Roy Fraser, Dunford Road, members voted a sum of \$5 to Camp Columbia, to assist with furnishings. Mrs. A. F. Bayles gave a report on the successful shamrock tea and Mrs. H. A. Hincks, the president, appealed for more subscribers to the "Challenge." It was decided, as guild members, to call on newcomers in the district, and date of the annual garden party was set for July. Mrs. L. Horner gave a reading from H. V. Morton's "In the Steps of the Master."

Chicle, used in the manufacture of chewing gum, was first brought to the United States as a substitute for rubber.

## Here For Y.W.C.A. Spring Conference

MISS AGNES ROY

Miss Agnes Roy, Y.W.C.A. national general secretary, arrived in Victoria this morning, and will be guest speaker at a banquet in the Y.W.C.A. on Saturday evening, during the Spring Regional Conference.

More than 100 delegates from Victoria, Vancouver, Seattle and Bellingham are expected to attend the conference to be held this Saturday and Sunday.

Registration will take place Saturday morning at 9.30 and the conference will be opened by Dr. Olga Jardine at 10.15.

A panel discussion headed by the Vancouver club members and chaired by Mrs. Edna McClung, chairman, Young Adult Com-

mittee, Vancouver Y.W.C.A., will highlight the morning session.

Subject for discussion at the Saturday afternoon sessions will be "What Does the 'C' in Y.W.C.A. Mean to You as a Mature Citizen, Individually, Politically and Internationally?" Speakers will be Miss G. Aitkenhead and John Baxter, Victoria, and Mrs. Stephens, Vancouver.

Sunday morning session will commence at 10 a.m. and conclude at noon.

Miss Marion McCulloch is chairman in charge of arrangements, assisted by Miss Eileen MacLean, Mrs. Gladys Portingale, Mrs. Kay Hancock and Miss Dorothy Watson.

## 'Colder Fragrance' Best For Canadians, Says Expert

TORONTO (CP) — Woman's sniffing ability has to be sharpened by education of the olfactory nerves, if she is going to sail into society scenting her best.

So says Francois de Roussy de Sales of Paris who, as representative of a world-wide perfume firm, believes women's olfactory sense should be as highly developed as sight.

Mr. de Sales objects to perfumers who suggest that women should wear the perfume representing the type they want to achieve. Rather, they should choose a scent to suit their personality and appearance and stop trying to be the delicately exotic person they dream of becoming.

Out of 15 fragrances developed through years of research, the firm imported only six of the "colder fragrances," not because Canadian women are cold, but because they are of the "northern type" who should smell more of honeysuckle than orchids.

"A young girl with a fresh complexion, blonde hair and blue eyes will choose a light, floral perfume rather than age herself with a heavy, sultry and spicy odor," he explained.

**OPPOSITE EXTREME**  
On the other hand, an older, more sophisticated woman with a southern complexion represents the opposite extreme, and would choose a scent heavy with musk, jasmine, tropical flowers and amber.

But if the woman has passed the sophisticated stage into a delicate, white-haired beauty, she should again revert to lilacs and rose petals.

Any woman should use a light perfume on a summer dress, while in the winter she should spray her fur coat with a heavy animal-like odor.

Other factors such as the occasion, the time of day, personality and physical type should be considered when reaching for the perfume bottle. But he warned women against trying to be "femmes fatales" when they were "jeune filles."

Mr. de Sales astonished many women at a press conference by suggesting that they should wear a light perfume rather than the heavier scent they preferred. The girls were prepared to be insulted, but instead Mr. de Sales said the floral fragrance brought out their innate "freshness and youth." The girls loved it.

A new liquid laundry starch contains bluing, does not have to be boiled or cooked and promises to speed up ironing.

## Petit Point Expert Exhibits Designs

EDMONTON (CP) — Mrs. Philip Jean of Edmonton has been doing petit point work for only 10 years but she's recognized as one of the top women in Canada in one of the oldest crafts in the world.

An exhibit of some 75 of her pieces will be shown soon at the City Museum of Art.

Mrs. Jean spends about eight hours daily at her hobby and she still finds it fascinating. She wears special glasses when she's at work—although she doesn't require them normally—because the gauze on which she works is so fine. In one of her pieces, that of a parrot, there are 3,600 stitches in one square inch.

She has about 500 ranges of color with from four to eight shades in each range. Mrs. Jean says subdued colors give more beautiful pictures but brighter shades are more effective.

"I never really appreciated nature until I started my petit point," she says. Now she is always on the alert for different shades and colorings.

At present she has nine pupils who work mainly on flower designs. Her own favorite flower is the rose and she has done one beautiful tapestry in seven shades.

Most of her work is on flowers but many believe her masterpieces are her "Lake Louise" and "Thatched Roof Cottage." Colors are delicately and beautifully blended and there are 17 shades of green in the fir trees alone.

Mrs. Jean is the first vice-president of the Edmonton branch of the Canadian Handicraft Guild and has exhibited pieces throughout the Dominion, in the United States and England.

## Dorothy Dix

Dear Dorothy Dix: What's wrong about giving a boy a neck tie for a present? They say a girl should never do it.

TWO TEEN-AGERS

Answer: There is nothing wrong about it, or contrary to Emily Post. It is just because men's and women's taste in neck ties almost never jibe, and most boys wouldn't be caught dead in the neck ties their sweeties gave them for Christmas or on a birthday.

Of course, if you happen to know just the kind of a tie a boy craves, or if he has been smart enough to tip you off about one, that's different. Then you can go the limit.

**Plan New Church** — At the monthly meeting of the women's auxiliary to the United Church, Ganges Harbor, Salt Spring Island, plans were discussed for the new church. Mrs. C. Zenkie presided and treasurer's report showed \$30.54 on hand. Tea

hostesses were Mrs. J. B. Foubler and Mrs. J. Dewar.

## B.C. To Get Medical School By Fall, 1949, Education Minister Tells Legislature

Education Minister W. T. Straith announced Wednesday that a medical school will be opened on the University of British Columbia campus in the fall of 1949. The medical school will cost the provincial government between \$300,000 and \$350,000 annually to operate when it is fully established, Mr. Straith said. The government last year set aside \$1,500,000 for a medical school building on the campus and this year will appropriate \$100,000 to go toward the administrative cost of establishing the school.

"I know that many members will be disappointed that the medical school cannot commence this fall," said Mr. Straith. "However, we must have some period for organization. We must also have buildings equipped for medical teaching and we must also have a dean and staff for the medical faculty and this cannot be accomplished so that the school might be opened in 1948."

### THREE BUILDINGS

Mr. Straith told the Legislature that three buildings will be required for the school, as follows: 1. The biological sciences and pharmacy building, which will be used jointly by the medical and other faculties. Tenders for this structure have already been called by the university but the cost was so high that the plans are being revised and it is hoped that tenders will be called again shortly. The building will be used to teach pharmacy and biology to the medical students.

2. A building which will be used exclusively by the medical school to teach anatomy, bacteriology, preventive medicine, nursing and health, and will accommodate the health services and the Connaught laboratory. Like the biology and pharmacy building it will be a permanent structure.

3. Temporary buildings now on the campus will be adapted for pre-clinical teaching of medicine.

"You will realize that this is a rather expensive faculty," said Mr. Straith, commenting on the sums which will be needed to carry on the school. "For about \$300,000 we will be able to graduate 50 doctors per annum, so that it will be obvious to the members that it will cost this province \$6,000 per doctor for the four-year course."

"This seems a lot of money, but we have been relying on other provinces and states of the union to educate our medical men in the past and I think that we have now reached maturity in this province and we should stand on our own feet and educate our own professional men."

The question of hospitals, in which senior students will be trained, was "a municipal obligation and we will have to rely on the City of Vancouver to provide hospital facilities," said Mr. Straith.

### HOSPITAL ACCOMMODATION

"When the Vancouver plans are matured for the building of new hospital accommodation, the government will have to determine the extent to which we should participate in this scheme and the extent to which we ought to contribute for the adapting of teaching beds for our medical school," he said, noting that the teaching beds would not be required until October, 1951.

Mr. Straith said that the government wanted an outstanding medical school from the beginning and it would probably be necessary to recruit the staff throughout Canada.

He indicated that the intake of the school, to graduate 50 doctors per year, would be from 65 to 70 students.

The Education Minister's announcement brought congratulations, but expression of regrets since it would not be started earlier, from both government and opposition members in the Legislature Wednesday.

Along with expressions of approval members fired a barrage of questions about the proposals. Mr. Straith pointed out that it was up to the university and hospital authorities to answer them.

A. R. MacDougall, Coalition, Vancouver-Point Grey, wanted to know if the plan to have a hospital on the campus to be operated by the medical school had been dropped.

### DISAPPOINTED AT DELAY

Dr. J. J. Gillis, Coalition, Yale, saying that the government had done as much as it could for the school, expressed disappointment that the school would not be in operation by the fall term of this year. He urged that the dean of the medical school be appointed immediately and take over the job of organizing the school.

Dr. F. W. Green, Coalition, Cranbrook, expressed "extreme pleasure" at the announcement, and said he hoped some millionaires would endow the school to make it the best in Canada.

H. J. Welch, Coalition, Comox, said he was delighted with the announcement, but A. J. Turner, C.C.F., Vancouver East, feared the government was doing things backward, saying the medical school should have been established years ago to pave the way for the hospitalization scheme the government is undertaking. He believed more hospitals would be needed to take care of the backlog of people needing attention.

Tom King, Coalition, Columbia, questioned the total cost of graduating a student but Mr. Straith said this was not known.

Arthur J. R. Ash, Coalition, Saanich, sought information on assistance to young men showing surgical skill but unable to pay the expense of training.

Mrs. Tilly Rolston, Coalition, Vancouver-Point Grey, also congratulating the government but regretted 1948 would be a lost year for students since the school would not be ready.

## Equalization Board To Sit On Province School Grants

Provision to set up a three-member assessment equalization board, empowered to adjust assessments for computation of government grants and the division of school costs between component parts of school districts, is contained in amendments to the Public Schools Act now before the Legislature.

The bill to amend the Public Schools Act was introduced by Education Minister W. T. Straith Wednesday. It provides that the board, to be appointed by the Lieutenant-Governor in Council, shall consist of a representative of the Union of B.C. Municipalities, a representative of the government and a chairman.

Provision for an assessment commission, with a Supreme Court judge to preside over the board, was made in 1946 but this section will be repealed by the amending bill.

### COMPLAINT PROCEDURE

The procedure leading up to adjustment of assessments by the board provides that 12 or more ratepayers in a rural area contained in a municipal school district and municipalities wholly or partly within a school district may make complaints, which may be referred by the Lieutenant-Governor in Council to the board.

The board will have all powers conferred upon a commissioner appointed under the Public Inquiries Act and will have access to all assessment records and accounts. Witnesses may be called by the municipalities or rural ratepayers at the board hearings.

"The board by its order may determine the manner in which the accounts for school expenses as between the component parts of a school district shall be adjusted consequent upon any order changing the assessment base or bases of any component part of a school district," says the bill. "Notwithstanding any other provision of this act, the order shall be binding upon the Board of School Trustees and any municipality contained in the school district and also upon the provincial assessor in cases where a rural area is contained within the school district."

### STUDYING BUDGET CONTROL

The 13-page, 50-section amending bill adopts some of the recommendations of the Maclean Report on school costs, but makes no provision for budgetary control of school boards, although it is understood the education department is studying this problem.

Provision is made for school boards to establish, with approval of the superintendent of education, dormitories to accommodate children resident in the district but for whom no other

school facilities are available. The government, as in the case of new school buildings, will contribute 50 per cent of the cost of the buildings. It will also make grants of \$7 per pupil per month toward the operation of the dormitories.

While current school boards must pay cash for new transportation equipment for schools, provision is made for boards to borrow money for this purpose, provided repayment is arranged for within a five-year period.

No by-law need be submitted to the ratepayers for school buildings and additions costing less than \$5,000.

No by-law need be submitted to the ratepayers for school buildings and additions costing less than \$5,000. No by-law need be submitted to the ratepayers for school buildings and additions costing less than \$5,000.

## Winch Tribute To New Haven School

British Columbia's New Haven Borsal-type institution for youthful criminals, re-established last fall in Vancouver, Wednesday afternoon in the Legislature won the unqualified endorsement of one of the government's most severe critics of social services, E. E. Winch, C.C.F., Burnaby.

Also endorsing the institution was J. H. Cates, Coalition, North Vancouver. He congratulated Attorney-General Gordon S. Wismer who fathered the institution a decade ago—the first Borsal institution established on the continent.

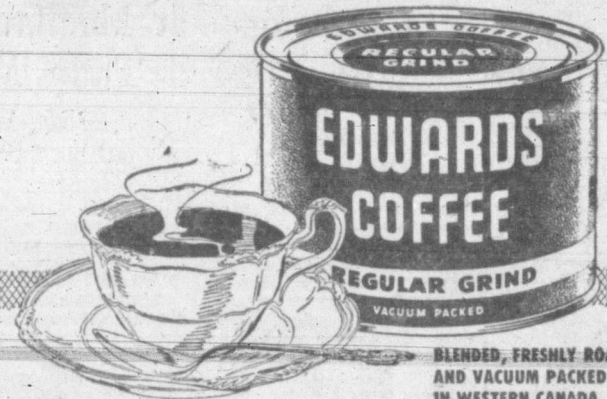

But Mr. Cates for the second time during the session urged that a training ship be operated in connection with New Haven as an award for youths showing good conduct.

The training ship suggestion was seconded by Herbert Gargrave, C.C.F., Mackenzie, who reported that in Great Britain training ships had been responsible for greater reclamation of youths than the Borsal schools.

## Dr. G. M. Weir On Way To Recovery

"The Legislature Wednesday heard a further report on the health of Dr. G. M. Weir, member for Vancouver-Burrard and former education minister who has been ill since last fall.

Education Minister W. T. Straith said that Dr. Weir was showing decided improvement and while having been retarded by influenza was doing very well. Mr. Straith said Dr. Weir's mind was keen and doctors said he will be completely restored to normal health.

### Refresher Courses For Judges Urged

Refresher courses for judges and magistrates were advocated in the Legislature Wednesday by A. J. Turner, C.C.F., Vancouver East.

Just as other professional men find it necessary to have refresher courses, so should judges and magistrates, particularly those of juvenile and family courts, have them, he said, advocating that particular attention be paid to applied psychology.

Mr. Turner also said more probation officers should be appointed.

### M.L.A. Advocates Course in Manners

Inclusion of a short course on manners in British Columbia's school curriculum was advocated Wednesday in the Legislature, by Cmdr. C. T. Beard, Coalition, Esquimalt.

"The war did away with a tremendous amount of manners in youngsters," said the member. "A little bit of politeness from children makes a tremendous difference."

He noted that the cost in money and time would be small and recalled that when he went to school in Ontario details to make it easier for a boy or girl to find a job, hold a job and get along better in the world were taught.

### 2,500 More Teachers Needed In B.C. In Next Six Years

British Columbia's school population is increasing at the rate of 400 a month and 2,500 new classrooms and 2,500 more teachers will be required in the next six years.

Education Minister W. T. Straith explained this phase of British Columbia's school problem to the Legislature Wednesday. He said that during the last three years 20,000 students had been added to the attendance rolls and 700 classrooms and teachers were needed to care for them.

He indicated that the growth after six years would tend to level out.

Mr. Straith indicated that the adoption of the Cameron report was responsible for only five to 10 per cent of the increase costs of operating schools. He said that increase would be broken down equally among the increased salaries of teachers, increased school population and increased cost of materials.

While teachers salaries had risen by 28 per cent he said the cost of living had gone up by 29 per cent.

British Columbia's school population today is about 145,000. "The Cameron report cannot be blamed for everything," he said, noting that while school costs in B.C. had gone up 39 per cent in Alberta they had gone up 40 per cent and in Ontario 28 per cent.

P.G.E. Railway Gets First Diesel Engine

Directors of the provincially owned Pacific Great Eastern Railway have approved the further purchase of new equipment, including a Diesel electric switch engine—the first Diesel engine to be put on the road.

The cost of the equipment, which will include one gas electric motor car, six outfit cars, six baggage cars, four 8,000-gallon steel oil tank cars, three standard sleeping cars, one cafe dining car and 32 flatcars, will total \$243,000.

Approved at a recent meeting of the directors the new orders were announced by Premier Byron Johnson. The purchases will be made this spring.

The passenger equipment order is for the purpose of extending the passenger service on the Pacific Great Eastern Railway this summer," said the Premier's announcement.

Also to be purchased is a crawler type tractor to be used for emergency maintenance work on the railway.

Directors of the railway appointed a committee to proceed to Williams Lake to negotiate disposal of the railway-owned water supply and distribution system with the village commissioners.

Temperance Teaching Confined To Schools

British Columbia's temperance education program for the present will be confined to the schools, Education Minister W. T. Straith indicated in the Legislature Wednesday.

He said that while Alcoholics Anonymous were doing a marvelous work, it was so delicate and personal a matter he was not sure the program should be interfered with.

Mr. Straith said that the program in the schools would not be conducted as a separate course but would be worked in unobtrusively in other courses.

E. E. Winch, C.C.F., Burnaby, expressed regret that the program was to be confined to the schools, saying that liquor, while one of the major sources of provincial revenue, was also one of the major causes of social costs. He said 57 per cent of those committed to jails were intemperate.

Laws Revision Set For Next Session

The lengthy job of revising and consolidating the hundreds of laws of British Columbia will be completed before the next session of the Legislature next spring.

This assurance was made Wednesday by Attorney-General Gordon S. Wismer.

The work is being done by J. Pitcairn Hogg, legislative counsel, who started last year. The last revision of the statutes was completed in 1936.

The Legislature Wednesday appropriated \$6,000 for the project.

Cathedral Organist Leaving Victoria

Thomas Jenkins, Mus. Bac., for many years organist and choirmaster at Christ Church Cathedral, has accepted an appointment as organist and choirmaster at Christ Church Cathedral, Vancouver; it was announced.

A new organist will be appointed by a church committee to replace Mr. Jenkins who expects to commence his new duties in June.

Both the clergy and the Cathedral choir have joined in congratulating Mr. Jenkins on his appointment. The choir expressed regret at his departure.

### Crown Prosecutors' Fee Boost Proposed

Attorney-General Gordon S. Wismer feels that fees paid Crown prosecutors should be increased.

In selection of lawyers to conduct Crown prosecutions, Mr. Wismer said he always tried to select the best man available but frequently the best man was serving for the defence where he received much more than the Crown would pay. Considering the importance of some cases the fee was too small, he said, noting that sometimes the defence lawyer may receive 50 times as much as the Crown prosecutor.

J. H. Corsbie, C.C.F., Peace River, said that in his district a lawyer who could not win a case always seemed to be selected.

### Junior Optimists Elect Club Officers

Jim Going was named president of the Junior Optimists Club of Victoria at a club meeting Wednesday night called for the purpose of electing officers.

Others elected were George Wright, sergeant-at-arms; Frank Tompkinson, secretary; Allan Elphick, treasurer, and Ian Holrid, vice-president.

The Junior Optimists Club, sponsored by the Victoria Optimist Club, received its charter at the meeting from Governor David Lewis of Optimist International.

The Junior Optimists are given instruction in sports, woodwork and other activities by members of the senior club, at regular meetings in one of the former army huts on Tye Road.

The fifth and last of the teacher training courses under direction of the Anglican Sunday School Teachers' Association of Victoria, was held at the Memorial Hall Wednesday. The attendance has been a record high one of 60. Rev. T. L. Leadbeater has given capable leadership.

Instructors have included Mrs. H. A. Beckwith, Mrs. W. W. McGill and Rev. G. Scarrett. The secretary is Miss Helen Stevens.

Provincial Recreation Centre of Greater Victoria annual mass display will be held in the Victoria High School gymnasium May 14 at 8. Special practice Pro-Rec are asked to return them without delay to the nearest centre.

den auditorium tonight, April 14, 22 and 28 at 7.30. Any members having costumes belonging to Pro-Rec are asked to return them without delay to the nearest centre.

## Loan of \$90,000,000 Wanted For Power Plant Expansion

RIO DE JANEIRO (AP)—The Brazilian Congress is being asked to underwrite a \$90,000,000 World Bank loan for electric power expansion.

It would be one of the first World Bank loans for development of "under developed" Latin America and might set a precedent for other South American governmental guarantees of loans for industrial development.

The proposed loan also would absorb most of Brazil's borrowing quota with the World Bank. Brazilian Congressmen are carefully examining the request.

The Brazilian Traction, Light and Power Co. Ltd. of Toronto wants the \$90,000,000 loan to expand its power plants and improve service to Rio de Janeiro and Sao Paulo, as well as nearby regions.

The World Bank in Washington will lend the money if the Brazilian government as a member of the international banking agency, will guarantee its repayment.

The loan would be repaid in 20 years with an interest rate of 3½ to 3¾ per cent, plus a probable extra 1 per cent for the bank's reserve fund, making a total of 4½ to 4¾ per cent.

President Dutra, in his recent message to Congress, asked for expansion of Brazil's industrial output and added "our production of electric power is far from sufficient for our economic demands."

### INDUSTRIES GROW

To create more power for the growing industrial demands of Rio and Sao Paulo, second and third largest cities in Latin America (after Buenos Aires), will be a complicated engineering task.

The Brazilian Traction, or "Light" as the company is called in Brazil, already has spent \$100,000,000 on the project and needs the \$90,000,000 to complete it.

The project includes two main developments. Existing power plants will be examined and a conduit will be installed between Rio and Sao Paulo to divert power either way.

## Uncle Ray

### OX HIDES WERE EATEN BY SAILORS WITH MAGELLAN

The months of July and August had meant warm weather to Magellan and his men in their past lives. At the southern end of South America, they found the climate different. July and August were cold months there, and September proved cold enough.

Some sailing was done in September, however, and efforts were made to locate a passage to the west. While the search was going on, one of the vessels was wrecked, but all those on board were saved.

At last a passage was found, a stretch of water which was to be known in the future as the Strait of Magellan. This strait has a length of 360 miles.

The discovery was a welcome one, but the captain of the San Antonio was afraid to travel farther. Against orders from the admiral, he turned and sailed back to Spain.

Going on with the journey with a fleet containing only three ships, Magellan headed north-westward over a broad ocean. This ocean had been called the South Sea by Balboa, but Magellan gave it the name of the Pacific (or Peaceful) Ocean. He found the winds on it gentle.

The winds were good enough, but the distance was too great. Day after day, week after week, the fleet kept on its way. No land was seen except for two barren islands, which supplied neither food nor water.

A large stock of food—including salt pork, biscuits, cheese, flour and prunes—had been taken from Spain, but this was largely gone. There were biscuits to eat, but they had become stale, powdery and wormy. The water was yellow with age.

Meeting their problems as well as they could, the sailors caught rats and cooked them for the dinner table. Ox hides which had been used to keep the sails from chafing against the masts were dragged in the sea for four days to make them soft, then were cooked and eaten.

Almost four months after leaving South America, the sailors saw land—land with fruit trees on it!

(For Biography section of your scrapbook.)

Annual general meeting of the Army, Navy and Air Force Veterans in Canada, Victoria unit, will be held April 15.

By PETE SALLAWAY

WHEN BALL CLUBS in the Western International League spring the barrier the night of April 16 the umpire staff will be at least half brand new over last season. Moving into the circuit this year will be four recruits from Bill McGowan's famous school held every spring in Florida. The newcomers are William Husband, Max Skulak, Abe Kotzen and Jerry Mathieu. Returning from last season will be Frank Dehaney and Bob Last for sure. Just who the other two umpires will be I haven't heard but it has been announced that Hughie Day and John Nenech will not be back. Day was painfully injured during the winter while Nenech has departed to another league. Through the grapevine I also hear that Amby Moran will not be back.

TO DATE PRESIDENT Bob Abel has given no indication of how he intends to partner the officials for the coming season. The boys usually work in pairs, the idea being to get two officials used to working together which means for better umpiring. There is little question the recruits from McGowan's school will be partnered with more experienced umpires. Dehaney will work as umpire-in-chief of the circuit the same as last season. The calibre of umpiring in the league last year was fair and it is to be hoped it will be every bit as good if not better during the coming campaign.

NOTICE WHERE RAY Fortier, young southpaw flinger with the Victoria Athletics last season has been optioned out for the coming season by San Diego Padres to Tamoca of the W.I.L. Fortier was up in a little too high class ball last season and will likely find it tough to win in the class B circuit again this year. He would have benefited last season by being shipped down to a class C club, but the A's were not blessed with sufficient mound strength to let him go. Also noticed where Bob Garbould, former Seattle infielder, has been sold to the Tacoma club by Portland. He should go well in class B competition.

THE writer was pleased to learn today that, although the senior A men's softball league will control all gates, both league and playoff, under the new setup passed at Tuesday night's meeting the seniors are not forgetting the youngsters. Under one of the sections of the new constitution being drawn up by a special committee the senior clubs will pass along a certain specified sum to assist in the promotion and development of the juvenile leagues. The seniors are smart as it is from those same minor clubs that their players of the future must come.

## Camerman Ott

After an exhibition game in Phoenix, Ariz., manager Mel Ott gets his New York Giant family men together for a portrait—with families. Left to right are, rear, Mrs. Clint Hartung, Mrs. Sid Gordon, Mrs. Mel Ott, Mrs. Walker Cooper and Mrs. Gene Thompson. In the front row are, left to right, pitcher Hartung, second baseman Sid Gordon with his son, Mike, 5; catcher Walker Cooper with his daughter, Sara, 8, and pitcher Thompson and his daughter, Pat, 4.

## Verley, Painter Share Empress Golf Laurels

Sharing the headlines in the third day's play of the week-long Empress golf tournament at the Victoria Club yesterday were a pair of Victorians, Gordon Verley of Uplands and Vic Painter of Colwood.

Verley, in addition to gaining a berth in the men's quarterfinals of handicap play in a morning round, came back in the afternoon to eliminate Lee Steil of Bellevue, Washington, 2 and 1, in the open event and qualify for a semifinal spot.

But the real highlight of the tournament which to date has been one of many upsets and surprises, was Vic Painter's ace on the 14th hole in a morning match with P. W. Brockie of Calgary. The defending open champion also stayed in the running for this year's title by canning a 15-foot putt on the 18th green for a birdie three and a 1 up victory over Dr. George Bigelow, home club member.

Bill McColl, clubmate of Painter, won his way into the open semifinals with a 3 and 2 decision over R. J. Nicholls of Astoria and meets Ken Lindley of Seattle in today's play. Lindley won by default from E. S. Thomas, Portland.

The men's open finals will take place tomorrow with both women's and men's handicapped championships set for Saturday.

## Bremerton Jackets Turn Back Idaho

Bremerton Western International League entry finally got over a college opponent yesterday, but the Salem Senators didn't fare so well.

The Bluejackets, prey of three collegiate nines this year, got a measure of revenge with an easy 9 to 4 win over Idaho with Dale Market smashing out a double and three singles.

Salem fell behind Oregon State 5 to 0 in the second frame, tied it up and then lost 6 to 5 as the Beavers pushed over a lone score in the ninth inning.

Yakima bested Tacoma at Walla Walla, largely on a three-run burst in the seventh inning when Tacoma's Angelo Vettorelli gave up three singles, walked one man and hit another.

## Bays Out To Capture Rugby Title Saturday

Can J.B.A.A. gain revenge for a humiliating defeat that happened last year or will a 15-year-old jinx stand up?

These questions will probably be answered Saturday afternoon at Macdonald Park when Bays tangle with North Shore All-Blacks in the provincial rugby final for the Rounsel Cup at 3.

Last year—and J.B.A.A. players should recall this with little effort—the local squad, in the role of defending titleholder, was whipped—but good—by U.B.C. in the cup final.

It wasn't the loss so much but rather the margin of defeat that aroused the ire of the Bays, and this season they have sworn revenge on the visiting Vancouver fifteen.

But here again we find that one factor has probably been overlooked.

North Shore, who once were the power in the English rugby world in British Columbia, don't take these playoff tilts too lightly. As a matter of fact a North Shore team has never lost to a Victoria team in provincial playoffs.

## PLAYERS RECOVERED

However, the Bays' feel they have a chance. This is especially so now that four players who have been out with injuries in recent weeks will be ready for Saturday's tilt.

Dick Chunganes and Harry Downs of the rep team, Tommy Joyce and Don Thomas will be in uniform. Chunganes will start at his usual wing position with Joyce and Thomas at the inside three-quarter positions. John Hicks will play the other wing.

Downs will play in the scrum along with Bob Mair, Frank Gower, Joe Andrews, Ian Turner, Albie Williams, Dave Crockett and Don Shaw.

Veteran George Langdon will play scrum half with Fred Ranson at five-eighths and Tom McKeachie at fullback.

## Rifle Shooting

Jack Regan exhibited some of his prize-winning form at Houle Range, Wednesday, when he shot a string of 21 consecutive bullseyes, including sighting shots, before dropping his only point during the shoot.

Other scores were:

Mel W. H. Wood	45	49	56

# Gus Mortson's Loss With Broken Leg Serious Blow To Victorious Toronto

## Vancouver Canucks Win Hockey Opener

SAN DIEGO, Calif. (AP)—Vancouver's Canucks marked up a 3 to 2 victory in their first game in a best-of-seven playoff with San Diego for the Pacific Coast Hockey League championship.

Wingman Bobby Ballew continued the torrid scoring streak he began in the northern division playoffs with Seattle, slammed in two goals after assisting on another in last night's triumph.

The second game is billed for tomorrow night.

## Ideal Barbers Win Commercial Fivepin Trundling Title

In a five-game roll-off with five other teams, Ideal Barbers last night won the championship of the Commercial Fivepin Bowling League. The tonorial artists spilled 5,925 pins to edge runner-up Quality Meat by 171 pins.

Watson's finished in third place with 5,534 followed by Home Cafe with 5,478, Northwestern 5,289 and Eagles 5,249.

Consolation honors for league teams out of playoff competition went to the Liberty Cafe squad with a three-game total of 3,648 pins. Alex McKeachie, city champion, paced the winners with a three-game total of 849. Canada Packers were second with 3,440 pins.

Annual banquet and prize giving will take place at the Douglas Hotel April 14 at 7.

## Oak Bay, Thistles Clash Saturday In Soccer Playoff

Oak Bay and Saanich Thistles, a couple of soccer teams who, when playoff time in the intermediate league rolls around always seem to be clashing in the finals, go at it again this Saturday in the city final of the Island Cup series. Game time is 2:30, at Windsor Park.

Thistles and Bays were both forced into overtime last week before qualifying for the final, but Oak Bay knocked over the league champion Brentwood Aces eleven and on the strength of that triumph must be given an edge for the playoff tilt.

Thistles, who played spotty ball through most of the season have shown great improvement in latter weeks and could upset the high-flying Oak Bay squad. Winner of the series will play Duncan the following Saturday.

## SOFTBALL PRACTICE

Army and Navy Vets senior B softball team will hold a practice at 10:30 Sunday morning at Central Park. All last year's members and any new players interested are asked to turn out.

TORONTO (CP)—Toronto Maple Leafs took that first long stride to their second straight Stanley Cup championship last night.

They emerged from a somewhat ragged hockey game victors by 5 to 3 over Detroit Red Wings in the opener of their best-of-seven final series. But in the process they lost the services of Gus (Hard Rock) Mortson, rushing defence man who was carried off the ice in the second period with a broken leg.

The injury which sent the 23-year-old prospect from Kirkland Lake to hospital dampened the spirits of the 13,633 fans who had watched the National Hockey League champions come from behind for the 34th time in 66 starts this season to fashion their victory. The second game will be played here Saturday night.

The Red Wings appeared to be victory-bound for the first few minutes. They capped their early mastery with a goal in less than eight minutes by rookie Jim McFadden who swooped across the goalmouth and slipped the puck into the net just as goalie Turk Broda was about to clear a shot from Pete Horeck.

The Leafs drove right back and 61 seconds later Harry Watson tied the score. Less than a minute later, sturdy Joe Klukay beat goalie Harry Lumley on a play with his linemates, Max Bentley and rookie Les Costello.

The Leafs drove right back and 61 seconds later Harry Watson tied the score. Less than a minute later, sturdy Joe Klukay beat goalie Harry Lumley on a play with his linemates, Max Bentley and rookie Les Costello.

The Leafs drove right back and 61 seconds later Harry Watson tied the score. Less than a minute later, sturdy Joe Klukay beat goalie Harry Lumley on a play with his linemates, Max Bentley and rookie Les Costello.

## Smythe, Adams Predict Rugged Cup Ice Finals

TORONTO (CP)—Conny Smythe and Jack Adams agreed on one thing Wednesday night. They didn't think Toronto Maple Leafs and Detroit Red Wings provided much of a spectacle in the opening game of the Stanley Cup final.

Smythe, who barely cracked a smile over his Toronto team's 5 to 3 triumph, called it a game of "chop, push and hook."

Adams, before summarily dismissing the press from the Detroit dressing room, said "we only played hockey for 30 minutes."

"I didn't think it was much of a game," said Smythe. "Detroit just went out there to chop, push and hook. I don't think they were deliberately dirty. They may have been tired. Or it may have been something else. Apps was down on the ice about 50 times; it was trip, trip, trip. You can't play hockey like that."

When someone asked what he thought about the series, Smythe said: "It will be pretty tough. That game tonight, we should have won easy. But we had to work for it. That's the way it's going to be."

In the Detroit dressing room, Adams asked Toronto newspapermen to leave after they had been in for less than a minute. "We have to pack and get out of here," he said. "We can't allow anyone in here."

The Red Wings bundled up right after the game for Hamilton and they will come back here for the second fixture Saturday night.

The Red Wings bundled up right after the game for Hamilton and they will come back here for the second fixture Saturday night.

## Salem Bids For Ball Crown With New Squad

SALEM, Ore. (AP)—Manager "Blackjack" Wilson doesn't shed much light on the prospects of his completely remodeled Salem Senators, but it looks like his team will be among the leaders of the Western International Baseball League in 1948.

Wilson performed a minor miracle last year when he brought his weak-hitting club almost to the pennant. It finished third, dropping out in the final week. A former Boston Red Sox pitcher, Wilson master-minded the team into its strong finish by his work with the pitchers and his emphasis on strong defense.

While the Senators haven't had much training because of the heavy spring rains, it appears the club will be well-balanced.

Vince Lazor, the team's top pitcher, and Hank Anderson, a W.L. veteran, will be back on the hill. Three other pitchers—Gene Peterson, Buzz Sporer and Darryl Eliason—are back again, but they didn't show much promise last season. Wilson has four rookie pitchers who might make good.

In the infield positions, the only men who played last year are Mel Nunes, sparkling heavy-hitting third baseman and Al Spaeter at second base.

Jim Wirt, a California State League veteran, is expected to strengthen the team at first, a weak spot last year. At shortstop will be Joe Goetz, a former San Diego player who had a good record with Bremerton.

The new catcher is Buster Mc-

Millan, a big boy who batted over .300 in both the Texas League and the Southern Association.

The outfielders are expected to have lots of hitting power. Dick Sinovic, who last year was both a wild pitcher and a good outfielder, is going to give up pitching this year. Dick Gentzkow had a big year with Albuquerque last year, and Chet Hartman was a fence buster in the California State League. Bob Cherry, who had a good record with Denver last year, also is expected to report.

The Senators hope to get another infielder and a starting pitcher from the parent Portland Beavers of the Coast League. The Beavers aren't very popular around Salem right now. Before the season opened, they optioned three of Salem's best players to other leagues.

They were shortstop Bud Peterson and outfielders Eddie Barr and Hal Summers. The fans think the Beavers ought to do something for Salem.

## Vic High Soccer Eleven In Final Of Cup Tourney

Victoria High School entered the final round in the annual Col. onist Cup playdowns, symbolic of interhigh soccer supremacy, yesterday by whitewashing Mount View High, 5 to 0. Other semifinal match pits Oak Bay High, defending champions, against Mount Douglas at the Victoria High grounds, Friday. Game time is 3:45.

Winners produced some smart combination plays and the entire squad worked well together. Mount View came close on numerous occasions, however, but lack of finish around the net, together with some fancy goal-tending by Bill Henderson, held Saanichites off the score sheet.

Vic High went one up at the 12-minute mark following a foul against Murray MacDonald. Ralph Shandley took the kick and Ron Pearce headed to Roy Erickson who nodded the ball into the lower corner. At the 20-minute mark, centre-forward Allister Boyd banged in Erickson's rebound to put winners ahead, 2 to 0. Five minutes later, Vic High scored the final tally of the first half when Bruce Madeley took the ball all the way down the right wing and crossed to Shandley who hit the net.

Last pair of goals came towards the latter stages of the game, Erickson scoring his second at the 25-minute mark and Irwin LeBus registering the fifth when goalie Norm Saunders came out of the goal attempting to clear two minutes later.

In the junior soccer knockout competition, Oak Bay High edged Esquimalt, 2 to 1, and earlier in the week, Vic High trounced Mount Douglas, 5 to 0.

## Winnipeg-Lethbridge Register Ice Wins

WINNIPEG (CP)—Any lack of confidence that the underdog Winnipeg Flyers may have had before the start of their western Canada senior hockey final series with Edmonton Flyers today no doubt has disappeared into the thin air.

The Winnipeg club last night got the jump on the Albertans by scoring a 2 to 0 victory in the first game of their best-of-seven series to decide the west's representative in the Allan Cup final.

Playing a precision-type brand of hockey throughout, the Winnipeg team had a little better of the play on the offensive and stopped the Edmonton club from making any dangerous attacks by fierce back-checking.

The Manitoba men emerged from the bruising tussle with numerous bruises, none of which were serious, but it made them all unanimous on the point that the series will be their toughest yet.

"This club plays the roughest, toughest kind of hockey I've been in," said Sammy Fabro, a winger on one of Winnipeg's goal-scoring lines last night.

**SMART DEFENCE WORK**

Coach Art Barnett had great praise for the way his defence pairs worked and shut-out king Hal Thompson spared no words in backing his coach up.

"The pucks just didn't get by our defencemen. I can't recall having seen them work better together."

Mike Yashuk scored the Manitoba's first goal in the second period and George Stevens put the game away with his marker in the final session.

The defeat ended Edmonton's nine-game string without a loss, but the players were not dismayed.

Morey Rimstad, shifty blonde centre and high scorer of the western Canada loop this season, said "we always bounce back after getting set down."

Edmonton players noticed a great difference in the narrowness of the ice surface here in comparison with their home rink but they didn't offer that as an excuse.

Coach-manager Frank Currie of Edmonton wouldn't admit that his club played extremely rough. When asked if that was the type of hockey played in the W.C.S. H.L., he remarked, "it gets a lot rougher at times out there."

## Montreal Alouettes Seeking Filchock

MONTREAL (CP)—Frankie Filchock, former star passer with New York Giants of the National Football League who played with Hamilton Tigers of the Big Four last season, will come to town next week to talk terms with officials of Montreal Alouettes. It was learned today.

## Fish-Game Group Turn Down Plan For Sport Council

Although five zones in British Columbia have voted in favor of the formation of a provincial sportsmen's council, members of the Victoria Fish and Game Protective Association meeting last night turned "thumbs down" on such an organization.

Chief grounds of the local sportsmen in opposing the plan is that views of island sportsmen would not be given proper consideration because such a council would be dominated by mainland interests. The club will so register its disapproval at the game convention at Harrison Hot Springs April 28, 29 and 30.

The island affiliate has endorsed the council move.

Very safety conscious for those who tramp the game trails, the association will forward to the convention a five-point proposal to bring about a reduction in hunting accidents.

Main one of these is confiscation of license for certain infractions of the Game Act. Others include registration and examination of firearms, production of educational films and striking regulations requiring hunters to wear some type of bright apparel in the woods.

The club voted to affiliate with the B.C. gun and game clubs under the B.C.R.A., a move by scattergun clubs to form a parent body to set B.C. title shoots and to standardize several features in the sport.

**TURN DOWN REQUEST**

A letter from Alberni asking for local support of its motion to ban shooting of deer with shot-

guns unless ball cartridges were employed, was turned down.

The meeting heard Inspector George Stevenson of the B.C. Game Department on a short talk relative to stocking lakes with fingerling trout in this area. This year plantings will be made in Shawigan, Kemp, Grant, Matheson, Cushion (Saltspring) and Thetis Lakes and in three Duncan lakes.

Members wanted regulations now in force with regard to duck blinds at Boundary Bay enforced to cover the entire island. This action came as a result of instances of unsportsmanship tactics in the shooting of black brant.

Meeting wanted the thousands of acres leased to the company which will build a pulp mill at Duncan Bay, Campbell River, to be open to fishermen and hunters and a letter requesting this will be forwarded to the affiliated association for support.

It was reported the clubhouse construction at Goldstream flats has progressed to the stage where the foundations, floor joists and wall skeleton have been erected. A big work party is wanted for this Sunday to continue construction and members are asked to bring along hammers and saws. A week next Sunday plasterers are wanted.

Bomb. B West showed several interesting films.

## Fight Results

Akron, O.—Pat Comiskey, 214, Paterson, N.J., knocked out Ted Broddie, 199, Omaha, 8.

Oakland, Calif.—Tony Bosnich, 194½, San Francisco, outpointed Erv Sarlin, 188, Pittsburgh, 10.

Phoenix, Ariz.—Buster Smith, 146, Washington, D.C., outpointed Charley Salas, 144, Phoenix, 10.

## Loses To Fort Worth

SEATTLE (AP)—Seattle Ironmen bowed to the visiting Fort Worth Rangers 5 to 1 Wednesday night in an exhibition hockey game.

The game had to be stopped for a time when Ron Pickell, Seattle goalie, suffered a deep cut over the bridge of his nose.

He played through the rough third period after six stitches were taken to close the wound, then went to hospital for X-rays to see if his nose was broken. Bill Warwick of the visitors led scoring with two goals and an assist.

## Big Coho Derby Set For October

A big coho derby in October is the plan of the Cowichan Bay Coho Fly Fishing Club, it was learned today. This will be the first fishing classic of the type held at Saanich Inlet to be promoted at the up-island bay.

Decision to this effect was made at a meeting of the executive last night, according to vice-president Lee Hallberg.

Members will endeavor to secure the services of Harry Woolston, past-president of the Victoria-Saanich Inlet Anglers' Association to head this derby committee. The gold-button winner at the bay, Woolston has been a member of the club for many years. The executive will "draft" him for the derby committee job.

Bucky Kennett, Duncan, president, was in the chair.

## GOOD PRIZE LIST

The meeting voted \$200 to be used to secure silverware for biggest coho caught during September and October, as in previous years. There are also 14 Indian sweaters to be presented to members reeling in the biggest spring salmon during July, August and September.

The meeting, after hearing a letter from the V.S.I.A.A. whether or not it was in favor of the control of salmon sport fishing on this coast being switched from Dominion to B.C. authorities, voted a definite "go." They want the control left in federal hands.

June 2 was set as the date for a membership dinner meeting on the social side of the club's program.

## On Mat Card

LEE GRABLE

Recognized as one of the bad men in the wrestling game, Grable has been matched with the rugged Chico Gracia for the semi-main event on Saturday night's card at the Armories. In the feature bout Jack Kiser engages Al Szasz in a match to the finish. Jack Poppenheim and Cliff Parker tangle in the special bout to open the show at 8:30.

## BACK IN TOWN

Dick McPherson who spent the winter on the prairies as a member of the Edmonton Canadians hockey team, is back in town and will turn out with Bill Andrews' Jokers lacrosse team.

## Objections Raised To Maximum On Deserted Wives' Awards

Objections to the maximum on payments which a magistrate may order a husband to pay to ward the upkeep of his family under the Deserted Wives Maintenance Act were expressed before the Legislature's social welfare committee today by Miss Margaret Gourlay, representing the British Columbia main and branch of the Canadian Association of Social Workers.

Miss Gourlay read a brief presented by the branch to Attorney-General Gordon S. Wismer. Before the Legislature is a bill providing for the raising of the maximum payments under the Deserted Wives Maintenance Act from \$20 to \$30 per week.

Miss Gourlay contended that no maximum should be provided in the act, but the question of the sum to be paid should be determined only by the courts.

**WANT TITLE CHANGED**  
Objection to the name of the act was also taken in the brief, which suggested the act be called the Maintenance of Wives and Children Act.

"Legislation, designed to ensure financial security of wives and children, should place the emphasis on maintenance rather than on the fact of desertion," said the brief, recommending that the grounds for a complaint to be lodged on behalf of the wives and children should be extended.

"It is considered advisable that the condition under which a wife may live apart from her husband and still claim maintenance from him for herself and children should be broader than those in the present act, in which they are limited to cruelty and inadequate support," the brief said.

**LIST COMPLAINTS**  
It recommended that complaints be laid against a married man who:

1. Has been convicted of assault on wife.
2. Has deserted without lawful excuse.
3. Has been guilty of persistent cruelty to her or to her children.
4. Is a habitual drunkard.
5. Has neglected or refused

without reasonable excuse to provide reasonable maintenance and support for her or for their children.

6. Has been guilty of adultery which has not been condoned.

The brief also advocated increasing the age of "infant children" from 16 to 18 years to facilitate continuing education of children.

It also advocated that complaints be laid by a wife, a person having the care and custody of the child or any other person on behalf of the wife or child with the consent of either the local prosecutor or such person as may be delegated by the Attorney-General.

"When the husband is residing within the province the area in which the case could be heard should include, not only the locality in which the husband resides and the locality in which the wife or child resides, but also the locality in which the wife or children reside," said the brief.

**COLLECTION PROBLEM**  
"With the mobility of our population the present limitation in jurisdiction imposes hardship in situations where the separation takes place in one locality and the husband and wife later move to different localities. The wife cannot institute action unless she can afford to travel either to the place where they last lived together or the place where her husband is now residing."

It went on to say that the provision for enforcement in the present act had proved relatively adequate when a man remains in the locality in which the order has been made and when he continues to work.

"However, enforcement of any maintenance order is dependent upon a knowledge of the whereabouts of the husband. The collection problem would be eased if a man who is in default on the order could be placed on probation, leaving the onus on him to report change of residence or employment."

Reciprocal enforcement of the act throughout Canada and the uniformity of legislation in the various provinces was also advocated.

**Against Sales Tax**  
Members of the Britannia Branch of the Canadian Legion at a meeting recently added their voice to the opposition of imposing a 3 per cent sales tax in British Columbia. They could see the tax as adding to the heavy burden already carried by pensioners. Pensioners were having enough trouble now to get along without the additional tax levy, it was pointed out. Resolutions passed on Legion affairs and other matters will go to the 12th biennial national convention of the Legion in Saskatoon starting May 23.

## Butter In Victoria Stores But Line-ups In Toronto

While Victoria wholesalers say there is a shortage of butter here, housewives are not being put to the inconvenience of waiting in long line-ups as they are in Toronto, where the picture above was taken.

Although city retail stores all seem to have adequate supplies of butter on hand at the present time to meet all demands, wholesalers say there is a butter shortage.

"We haven't been able to get our hands on a full carload of butter for more than two weeks now," a buyer of one large wholesale firm reported. "There is definitely a butter shortage yet," he said.

What supplies are coming in are being "scrounged," another wholesaler reported. "We can't

just put in an order and then have the butter arrive. We have a job to find a place where we can buy it."

There was some indication that the current shortage will be relieved, however, before it hits consumers as butter production is on the upward trend in the province.

Alberta and B.C. is being sold here. The Alberta butter is selling retail at about 69 cents a pound, while Fraser Valley butter is selling for 71 cents and upward.

Victorians remain far better off than residents of eastern Canadian cities so far as the butter situation is concerned. Toronto dairies, for instance, have been forced to ration the scarce commodity to one pound per customer.

Also, it is necessary to wait in long line-ups to buy it, reports from the east state.

While the situation here is not good, it is agreed that it is much improved over last year at this

same time. Then, although butter was rationed by the government, wholesalers were only receiving 50 per cent of their normal requirement.

Retail stores then had long line-ups form when butter was put on sale. In some cases, stores had no butter to sell for days at a time.

Another improvement over last year, is that now butter counters have apparently ample supplies of shortening, lard and beef dripping.

## Marriage Out For Anglican Clergy In Church Society

Members of the Anglican Society of Saint John the Evangelist in Canada don't marry because they wouldn't be able to live the life they have chosen, Rev. Father R. F. Palmer, S.S., J.E., superior of the Cowley Fathers, Bracebridge, Ont., said on arrival here today.

The clergyman who started the society in Canada 20 years ago is in Victoria to conduct a daily mission-service at St. Barnabas Church.

Father Palmer explained the society was one of many orders which make up the Church of England in Canada. "We are not monks in the true sense," he said, "but really missionaries."

He explained that the aim of the society, which was founded in 1865 by an English clergyman, was to work among the poor. "The members shared all their belongings," received no salary and helped one another in their respective work.

A mission had been started at Shuswap Lake, Sorrento, the first one to establish itself in British Columbia, he said.

When asked why the members were called fathers and brothers, Father Palmer said it was an affectionate title of respect and many people preferred to address them in that way. He added they had given up following the changing fashions and usually wore black cassocks.

He said the cassock was practical, a cheap dress suitable for all occasions and the wearer could perform any ministerial function without having to carry other better clothes around.

When Father Palmer started the mission at Bracebridge with the help of two other members, they had only \$300 to start their work. With this small sum they built a church and developed a 100-acre farm with the help of people who resided in the district.

## Pile Sufferers

I can help most pile sufferers. I believe I can help you too if you want relief from the itching soreness and burning pain of piles.

Hem-Roid is a different, Hem-Roid is an internal treatment, a small tablet taken with a glass of water. It helps relieve some of the conditions inside your body that cause you much intense pile soreness and pain.

But I'll be honest with you—there are some cases where Hem-Roid does not seem to help very much. I refuse to ask people to pay for something that does not help them. If Hem-Roid helps you, surely it is worth the small cost. If it does not help you, I want you to have your money back. I will take your word. I am honest about such things.

Simply go to any drug store and get a package of Hem-Roid. Use it as directed for 10 days. Then if you are not satisfied return what you did not use and get your money back. This is an unusual offer but Hem-Roid has been sold on a refund promise for over 40 years. I am not asked to make many refunds so Hem-Roid must help most people who use it.

Try Hem-Roid now. It won't cost you a penny if it does not help you.

## Shooting Case Before Court

The trial of Lee Yow Wah, charged, with shooting with intent to maim, opened in County Court today before Judge H. H. Shandley. The case involves a shooting affray in the Royal Bank, Government Street branch, March 8, in which Allan P. Newall, bank accountant, was wounded in the leg by a .22 rifle bullet allegedly fired by the accused.

Mr. Newell testified today that the accused confessed that with a rifle when he was examining a cheque which had been submitted to him by Wah. He said he dived for the rifle which exploded as he pushed it down, the bullet piercing the flesh of his leg.

The case is continuing.

## Kinsmen To Sponsor Essays On Wildlife

An essay contest for schoolchildren will be sponsored by the Kinsmen Club of Victoria as its part in National Wildlife Week, April 10 to 16.

Open to schoolchildren both in and outside the city, the writer of the best essay on the subject "Wildlife in Canada" will be awarded a trophy donated by F. W. Francis.

All entries should be mailed to the Kinsmen Club of Victoria, Post Office Box 403, not later than midnight April 16.

National Wildlife Week is sponsored annually by the Jack Miner Foundation, a foundation pledged to continue the work of the world-famous naturalist, Jack Miner.

## Racing Results

Bay Meadows—Results of horse racing here Wednesday follow:

First Race—	16.40	12.20	22.30
Brooklyn Lady	6.40	4.30	5.00
Scratched: Air Express, Bokhommie			
Second Race—	17.50	14.70	12.70
Don't Quote Me	5.00	3.90	4.50
Scratched: My Beloved			
Third Race—	14.90	13.70	14.40
Yazoo	6.20	2.10	2.50
Scratched: Early Snack, Big Caddy			
Fourth Race—	15.10	12.30	12.50
Bill Barlow	5.40	3.80	4.50
Scratched: My Beloved			
Fifth Race—	118.30	84.00	15.40
Wap Addid	4.30	3.20	3.80
Scratched: None			
Sixth Race—	118.00	12.30	14.00
Plush Point	2.10	2.40	2.80
Scratched: Count Oxy, Blueberry Pine, Overdrive, Cracked, Super Deuber, Zinfisher			
Seventh Race—	17.90	13.80	12.00
Hish Resolve	3.50	2.50	3.00
Scratched: Peace Harbor			
Eighth Race—	119.00	10.70	17.30
Blue Pennant	10.20	8.20	9.50
Scratched: Count Oxy, Blueberry Pine, Overdrive, Cracked, Super Deuber, Zinfisher			

## Funeral Notice

WOMEN OF THE MOOSE  
Past Graduate Regent Alice Bacher, Victoria Chapter No. 25, will be buried Friday, afternoon, at 2:15 from B.C. Funeral Parlors. The Moose will conduct a service.

## Verley Stages Thrilling Comeback For Golf Win

Climaxing a brilliant comeback to close out the match on the 19th hole, Gordon Verley, Uplands Club, reached the semifinals of the men's handicap championship for the Sir Edward Beatty trophy in the Empress golf tournament at the Victoria Club today, defeating the veteran Paul Glaser of Seattle.

Dormie three at the 15th, Verley, who had to give his opponent nine strokes, put on a thrilling rally to win the next three holes and square the match. Highlight was his birdie four on the 17th. On the first extra hole Verley won with a five when Glaser's putt failed to drop and he had a seven. Verley was giving a stroke.

Peter Bell, Oak Bay, gave Verley a second player in the semifinals by marking up a 1-up triumph over B. Titus of Portland. Bell, a high handicapper, will meet Verley in tomorrow's semifinals.

**MYERS WINS**  
Doug Myers, Tacoma, co-medalist, was also forced to come from behind to edge Ernie Ketchum, 2 and 1. Three down at the eighth, Myers captured three holes in a row to square the match. Then started a saw-saw struggle. Myers won the 12th, only to have Ketchum square matters at the short 13th. Myers regained the lead at the 14th, but Ketchum evened it at the dogleg 15th. Myers again went ahead at the 16th and closed out the match with a birdie four on the 17th.

Fourth match resulted in a 2 and 1 victory for D. Nicol of Portland over R. C. Parker another entry from the Oregon city.

The semifinal match between Myers and Nicol will be a family affair as they are brothers-in-law.

**Vast Wastes Of Canadian Arctic To Be Mapped By Air Photography**

OTTAWA (CP)—Vast unmapped wastes of the Arctic will be targets for R.C.A.F. photographic lenses this summer in the most extensive frontier-cracking expedition the air force has undertaken in 27 years.

Altogether, plans call for the filming of some 550,000 square miles of Canadian territory for defence and commercial purposes, utilizing two squadrons of planes, including four new long-range Lancasters and 250 men.

Operations are to begin within the next two weeks when a photo plane at the nearby Rockcliffe station will take off to open a seven-months' film probe of Canada's hinterland, with special concentration on the eastern and western coastlines and the pinpointing of unknown coves and inlets in the Arctic regions.

As winter's weather retreats northward, the air force planes will follow. Temporary bases will spring up at Fort Chimo and Baguville, Que. The Pas and Churchill, Man.; Frobisher on Baffin Island; Yellowknife and Norman Wells, N.W.T.; White

horse, Y.T., as well as at Ottawa, Calgary, Edmonton and Vancouver.

Negatives obtained will be rushed back to the developing station at Rockcliffe and turned over to the army and to the Resources Department for the preparation of military and commercial maps.

**TO ADD TO FILES**  
Each of these maps will add essential information to the files of the intelligence branch of the army, continually seeking more and more data on Canada's northern frontier.

Commercial maps, prepared by the Resources Department, will be used by miners, engineers and explorers searching the north for new minerals and for the opening of new industry.

Composition of the two squadrons include 16 straight photographic planes, 12 Dakotas and four long-range Lancasters. In addition, Canso amphibians will be used to fly scientists to northern points to establish astronomical fixation points required in the preparation of the maps.

## Labor Men Approve Move To Legalize Hospital Lotteries

A meeting of the Victoria and District Trades and Labor Council Wednesday evening cast a majority vote favoring a resolution from the Native Sons of Canada seeking amendments to the Criminal Code to legalize sweepstakes for hospital assistance.

The secretary of the council was instructed to take the necessary steps to support the plan.

Replies to the council's protest over the provincial sales tax were received from Agriculture Minister R. Patterson, Lands Minister E. T. Kenny, Provincial Secretary George S. Pearson, Education Minister W. T. Straith, Attorney-General Gordon Wismer, and M.L.A.'s Sam Guthrie, Tom Uphill and Herbert Gargrave.

The council decided a letter should be sent to the city council charging the sales tax was unfair to propertyowners who are at present paying 22.9 per cent of their present taxes toward school upkeep.

The city council will be asked to investigate the situation with a view to rectifying tax injustices where they exist.

A committee to study all aspects of social security was struck by the delegates, headed by Joseph Hodgson, chairman.

A protest will be sent to the city council on a proposal to erect a gasoline station on Belleville Street. Council delegates, in opposing the plan, said they felt there were already more than enough gasoline stations to give adequate service to the Victoria area.

A request for funds from the Pacific Tribune was unanimously rejected by the council.

## Children Entertain Veteran Patients

Patients at the Veterans' Hospital were entertained by a group of children from the South Park School who gave a program that would have done credit to any adult group. Particularly to their credit is the fact that the show was their own idea, with Donna Wood producing and Sonya Shulkes assisting and Donna Balma as M.C.

Mary M. Cameron, Barbara Graves and Bev Barnes gave piano selections, Joan Hutchinson played the piano accordion, Priscilla MacNeil and Joy Russell contributed Highland dances, Sheena Lang an Irish jig and Ruby White a tap dance. Viola Yetman recited and Norma Graves, Wayne Wood, Shirley Kellsall, Donna Wood and Ada Hall sang several numbers.

The only adult assistance they received was from Mrs. Graves, who accompanied at the piano.

## 6th Person Charged In Safe Robberies

Bernard C. Bowcott, brought here from Vancouver, appeared before Magistrate J. C. Hall this morning in city police court and was charged with being involved in the Ciro's Cafe robbery on March 28. George F. Gregory appeared as his counsel and his request for a remand to Monday with election was granted.

He is the third person to be charged in connection with the robbery of the safe from the Yates Street Cafe.

With Robert J. Carlow in Nanaimo for the Spring Assizes on a charge of manslaughter, Magistrate Hall today remanded the case of the theft of Stevenson's Cafe safe to next Tuesday morning. Carlow, Carl Kibsgaard and William D. Jones all pleaded guilty to this charge, Lea Albert Fortin is also charged in this entry.

Patrick J. Sinnott appeared on today of the juvenile Jones today and had two character witnesses speak for his client.

To date one man has been charged in the third safe robbery. This was at Gelling's Grocery on March 17. Edward Brown, charged with this yesterday, pleaded guilty. He was remanded to Tuesday for sentence.

## Two Girls Badly Burned When Gas Used To Light Fire

Audrey and Cora Burdett, aged 18 and 20 respectively, are in Jubilee Hospital today suffering from burns sustained when the stove in their housekeeping room at 1621 Quadra Street was lighted with the aid of gasoline and exploded, city police report.

"This affray emphasizes the folly of trying to use gasoline or inflammable oils to light stoves," was the comment of Fire Chief Robert Brindle this morning.

He attended the scene last night with firemen who quickly extinguished the flames. Deputy Chief Charles Gwyer was in charge of the operation.

The explosion which resulted from the use of the gas blew out a window and a portion of the front door. Damage to the room involved is estimated by firemen at \$1,000.

Fireman Edward Ball administered first aid to the burned young women until the police ambulance arrived to take them to hospital. Audrey and Cora suffered burns to the face, head, hands and body. Cora less severely than her sister.

Hospital attendants this morning reported the girls to have spent a good night.

## Musical Stars In 'Carnegie Hall'

Lily Pons, the famous Metropolitan coloratura, makes an auspicious screen come-back as one of the coterie of brilliant musical stars in "Carnegie Hall," now showing at York-International Theatre.  
 In playing her own life role, Miss Pons finds herself in company with such musical celebrities as Leopold Stokowski, Jascha Heifetz, Rise Stevens, Ezio Pinza, Jan Peerce, Walter Damrosch, Bruno Walter, Gregor Piatigorsky and Artur Rodzinski.

## Bumsteads Return In Anniversary Hit

"Blondie's Anniversary," new Columbia comedy based on Chic Young's well-known comic strip, is coming today to the Plaza Theatre.  
 All the members of this popular series will be on hand in this latest screen caper as Dagwood puts his foot in it again, only this time it's concrete—when gangsters try to take him for a ride!

**CAPITOL THEATRE**  
 It was a case of the "wearin' of the green" on the set of "Killer McCoy," M-G-M's punch-packed prizefight drama now showing on the Capitol screen. As Irish as the picture's title are its five leading players—Mickey Rooney, Brian Donlevy, Ann Blyth, James Dunn and Tom Tully. Also on hand were an assistant director named Charlie O'Malley and a head electrician named Parry O'Brien. Among the extras were included six Murphys and five O'Reillys. To make it complete, the dressing room of Sam Levene was given a new nameplate. "It read: "Sam O'Levene."

## 3 Victorians Win Paratroopers' Wings

Recently qualified for army paratroopers' wings at the joint air school at Rivers, Man., are these three Victorians: Left to right, Pte. J. A. Richardson, Cpl. R. G. Buxton and Pte. B. A. K. Franklin. They were members of a class of 40 student paratroopers who underwent four weeks of intensive training that was climaxed by five jumps from an aircraft. Thirty-six of the class were members of the special air service company which is composed of one platoon from the Princess Patricia's Canadian Light Infantry, the Royal Canadian Regiment and the Royal 22nd Regiment. This company is undergoing specialized training and its men are being taught to handle all types of vehicles and boats. In case of necessity, the special air service company will be used for rescue work and to assist in any serious emergency anywhere in Canada.

## 'The Great Waltz' Showing At Atlas

The real Johann Strauss, when he lost his job as a bank accountant in 1848 for composing music instead of sticking to his work, never remarked, "I'm fired."  
 But Ferdinand Gravel, enacting the composer in M-G-M's musical masterpiece reprint, "The Great Waltz," now showing on the Atlas screen, uses that glaring anachronism when he tells Luise Rainer of his discharge in the musical love story.  
 That modern phrase is one of a number which Julien Duvivier, director of "The Golem" and "Pepe Le Moko," purposely used in this production.

## Sensational Film Coming To Royal

"Gentleman's Agreement," the sensational best-selling novel by Laura Z. Hobson, comes to the screen of the Royal Theatre Monday, April 12, in Darryl F. Zanuck's eagerly-awaited production which stars Gregory Peck, Dorothy McGuire and John Garfield with an outstanding supporting cast.

The 20th Century-Fox film was directed by Ella Kazan of "A Tree Grows in Brooklyn" and "Boomerang" fame. Noted Broadway stage playwright Moss Hart wrote the script which is his first for the motion picture screen.

**ODEON**  
 Hollywood casting directors worked overtime during the production of Ronald Colman's new starring picture, "A Double Life." Three separate casts were signed for this Universal-International release which comes to the Odeon Theatre today. All played in the picture. One cast acted the story of the film itself. The second cast was hired to play scenes from the tragedy "Othello," as part of the picture. The third cast appeared in scenes from a stage comedy which figures in the film's plot. Colman and his leading lady, Signe Hasso acted in all three casts.

## Where To Go Tonight

- ATLAS—"The Great Waltz," starring Luise Rainer.
- CAPITOL—"Killer McCoy," starring Mickey Rooney.
- DOMINION—"Quiet Weekend," starring Derek Farr and Marjorie Fielding.
- OAK BAY—"The Virginian," starring Joel McCrea.
- ODEON—Ronald Colman in "A Double Life."
- PLAZA—"Blondie's Anniversary," starring Penny Singleton.
- RIO—"Hot Cargo," starring William Gargan and Jean Rogers.
- ROYAL—On the stage, the renowned Welsh baritone, Thomas L. Thomas.
- YORK INTERNATIONAL—"Carnegie Hall," starring Lily Pons.

## RIO THEATRE

Film-goers who like pictures that proceed at a rapid pace and provide more than welcome Paramount's "Hot Cargo," which is now at the Rio Theatre. With a cast of three such stars as William Gargan, Jean Rogers and Philip Reed, "Hot Cargo" sounds like exciting entertainment.

### ANNOUNCEMENTS

(Continued)

#### DEATHS

ROSS—On April 7, 1948, at St. Joseph's Hospital, Laura Ann Ross, aged 62 years, of 3350 Merritt Street, wife of George Ross of 1001 Glen Road.

She was born in England and had resided in Saskatchewan for many years prior to coming to Victoria three months ago. The late Mrs. Ross leaves to mourn her loss, by sides her husband, one daughter, Barbara, attending University at Saskatchewan (now in the city), also three sisters, Mrs. Arthur Checkley, Mrs. John J. Ross and one sister, Mrs. George Timmer of Saskatoon, Sask.

Announcement of funeral will be made later. McCall Brothers, Funeral Directors.

#### LOST—BLACK LEATHER WALLET

Containing money, driver's license and papers, near George Community Store, World under kindly phone 9164. Reward.

#### FOUND—A NUMBER OF TRAVELER'S

cheques in folder. Apply Lost and Found Department, David Spencer Ltd.

#### YULE—On April 6, 1948, at the residence, Albert P. N. Yule, beloved husband of Mrs. Yule, died at his home, 1001 Glen Road.

He was born in Scotland and had resided in Victoria for 40 years. Survived by three sisters in Scotland. Announcement of funeral services will be made later by the Thomson Funeral Home.

#### IN MEMORIAM

PRICE—In loving memory of our dear husband and father, William Price, who passed away April 4, 1948.

No gentler father could there be. Those who loved him and his voice are but a cherished memory.

His loving wife, Edith, and Charles and grandchildren.

## Upward Tendencies Exhibited

NEW YORK (AP) — Upward tendencies were exhibited by individual favorites in today's stock market although light selling depressed many leaders.

Profit cashing on the lengthy rise was in evidence from the start.

A few aircraft pushed forward on expectations of large-scale military orders. Ralls did little in response to the move for increased passenger fares. Airlines reflected only mildly the boost in rail rates.

Bidding still was predicated on rearmament, European relief and tax reduction. Bearishness over labor disputes, with the coal mining impasse hitting widespread industries, resulted in further liquidation.

**Dow Jones closing averages:**

30 industrials, 178.80, up .47  
20 rails, 54.92, up .17  
15 utilities, 33.74, up .17  
65 stocks, 65.41, up .20

Total sales 1,000,000.

## Grain

WINNIPEG (CP) — Reports of Mexico negotiating or having purchased 300,000 bushels of Canadian malted barley, reflected in trading in barley futures today on the Winnipeg Grain Exchange. Good buying appeared in barley by exporters and shippers during a fairly active session.

(By H. A. Humber Ltd.)

Police court today by Magistrate H. C. Hall. Evidence showed that the failed to halt at a stop sign on View Street and collided with another vehicle going north on Quadra. Damage to the other vehicle was about \$300.
